Subject: Recall notice - US Compounding, Inc.

US Compounding, Inc. (the "Pharmacy") is currently working with and at the request of the Federal Food and Drug Administration ("FDA") to conduct a recall of all lots of sterile products aseptically compounded and packaged by the Pharmacy and that remain within expiry and to and temporarily suspend production of aseptically compounded products. The sterile products were distributed from March 14, 2015 to September 9, 2015. Non-sterile medications compounded by the Pharmacy are not affected by this recall.

Please immediately check your inventory, quarantine, discontinue distribution of the affected product, and contact your wholesaler for directions.
