

Order to Cease and Desist:

Pursuant to CA Business and Professions Code section 4127.3 subdivision (a), Southern California Compounding Pharmacy is to cease and desist any and all non-sterile to sterile compounding. Cease and desist shall remain in place until Southern California Compounding Pharmacy can show proof of sterility and pyrogens within acceptable limits preparation currently in the possession of prescribers for patient administration and any product currently in the possession of Southern California Compounding Pharmacy made from non-sterile sterile ingredients for parenteral administration.

Southern California Compounding Pharmacy shall contact each prescriber for whom Southern California Compounding Pharmacy has preparations from non-sterile ingredients for parenteral administration to determine if the prescriber has any such preparation in his/her possession. Any such preparation in the possession of prescribers shall be recalled. The product is to be returned to Southern California Compounding Pharmacy.

Southern California Compounding Pharmacy shall not furnish sterile compounded preparations made from non-sterile ingredients until Southern California Compounding Pharmacy has received results from an analytical laboratory, like Eagle Laboratories, that the preparation is sterile and pyrogens are within acceptable limits.
