10 FACTUAL ALLEGATIONS

11 18. Respondent has multiple criminal convictions as follows:

12 a. On or about June 15, 2016, in *People v. Ashiv Sharma*, Superior Court of California,
13 County of Sutter, Case No. CRTR15-1069, Respondent was convicted by the Court following his
14 plea of nolo contendere to violating Vehicle Code section 23103.5 (reckless driving), a
15 misdemeanor. The circumstances of the crime are that on or about February 22, 2015, a Yuba
16 City Police officer observed Respondent's vehicle stopped in the westbound lane of Bradley
17 Estates Drive without a turn signal activated or brake lights.

18 The officer exited his vehicle to investigate the stopped vehicle and observed Respondent in
19 the driver's seat with his chin on his chest. The vehicle's engine was off. The officer knocked on
20 the driver's side window and Respondent's head snapped up. Respondent opened the door and the
21 officer observed that Respondent had bloodshot and watery eyes, slurred speech, disoriented and
22 unsteady but no smell of alcohol. The officer had to assist Respondent as he exited the vehicle to
23 keep Respondent from falling.

24 Respondent did not have an explanation for stopping in the middle of the road. The officer
25 performed field sobriety tests on Respondent who failed all tests. The officer conducted a search
26 of Respondent's vehicle and among other things found two drug vials that were tested and found
27 to contain Trenbolone and testosterone enanthate, both anabolic steroids. Respondent was
28 arrested for driving under the influence of drugs and was required to submit to a blood test. The

1 blood test results showed the presence of hydrocodone, zolpidem, alprazolam, and marijuana.

2 b. On or about June 15, 2016, in the *People v. Ashiv Sharma*, Superior Court of
3 California, County of Sutter, Case No. CRTR15-1070, Respondent was convicted by the Court
4 following his plea of nolo contendere to violating Vehicle Code section 23103.5 (reckless
5 driving), a misdemeanor. The circumstances of the crime are that on or about March 20, 2015,
6 Yuba City Police officers responded to a report of vehicle stopped in the middle of Plumas Street
7 near Center Street. When the officers arrived to investigate Respondent was in the driver's seat
8 of the vehicle asleep with engine running and the transmission in park.

9 The officers noted Respondent's face was droopy, balance unsteady, rancid breath, and a
10 white film on his lips and tongue but no smell of alcohol. Respondent vacillated from sleep to
11 being talkative as the officers questioned him. One officer attempted to perform field sobriety
12 tests but Respondent could not perform them because of his mental and physical condition.
13 Respondent was arrested and submitted to a blood test that revealed the presence of tramadol,
14 hydrocodone, and alprazolam.

15 c. On or about June 15, 2016, in *People v. Ashiv Sharma*, Superior Court of California,
16 County of Sutter, Case No. CRTR16-0365, Respondent was convicted by the Court following his
17 plea of nolo contendere to violating Vehicle Code section 23152(e) (driving under the influence
18 of drugs), a misdemeanor. The circumstances of the crime are that on or about October 22, 2015,
19 Yuba City police officers responded to an accident scene involving Respondent's vehicle that
20 crashed in an orchard. While investigating the accident, the officers noted the smell of alcohol
21 coming from Respondent. Officers noted Respondent had slurred speech that was barely audible,
22 bloodshot eyes and difficulty maintaining his balance such that a officer had to hold on to
23 Respondent to prevent him from falling.

24 Respondent was tested for alcohol at the scene with a preliminary alcohol screening
25 instrument. The test was performed starting at 0150 and revealed blood alcohol of .16 and .14.
26 The officer believed Respondent could not perform physical field sobriety tests without injuring
27 himself so the tests were discontinued. Respondent was arrested and submitted to a blood test
28 that was analyzed and found to have measureable levels of oxycodone, zolpidem, alprazolam, and

1 marijuana.
