

Release of Exam Scores:

Routine Release of Scores:

The board attempts to release examination scores to candidates as quickly as possible, and mailings are done weekly. At least once every two weeks, the board mails to candidates all the CPJE and NAPLEX scores it has received from PSI (CPJE) and the National Association of Boards of Pharmacy (NAPLEX).

For the CPJE: The board attempts to release CPJE scores four weeks after the week the CPJE was taken. If the scores are ready for release sooner, the board mails the score report.

For the NAPLEX: Typically the board mails candidates their scores two weeks after the week that they have taken the NAPLEX exam
