

## **Report of Eligible California Candidates for the Pharmacist Licensure Examinations**

**March 29-June 25, 2004**

This report displays the demographic characteristics and the performance of candidates who took the California Jurisprudence Examination (CPJE) between March 29 and June 25, 2004. To be included in these data, the candidate must have taken the CPJE. If the candidate also took the North American Pharmacist Licensure (NAPLEX), these statistics are reported and identified as NAPLEX data.

CANDIDATES TESTED – 573 candidates took the CPJE, of these 517 also had taken NAPLEX. One candidate took the NAPLEX twice (fail the first time, pass the second; only the pass information is provided, so technically, there were 518 attempts at NAPLEX by these 573 candidates).
