

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Accord Healthcare , Inc. is recalling **one lot** of Dodex® Injectable (Cyanocobalamin Injection, USP 1000 mcg/mL), Lot# R2200394. This recall is being initiated at the Hospital/Retail-level due to levels observed during assay testing analysis for shelf life of Cyanocobalamin Injection, USP 1000 mcg/mL (generic for Dodex® Injectable) at 9-months following manufacturing that are below approved specifications. This means that the observed level of active ingredient in the product is below the approved specification when tested, such that the product may deliver a subtherapeutic dosage of the active ingredient. This may result in longer treatment duration and recovery time for patients that are being treated for B12 deficiency.

Item Description: Dodex® Injectable (Cyanocobalamin Injection, USP 1000 mcg/mL)

NDC Number: 16729-533-08

Lot Number: R2200394
