

*The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.*

A recall request of product, Prednisolone-Moxifloxacin-Bromfenac (1%, 0.5%, 0.075%) Sterile Ophthalmic Solution at 503B facility, Imprimis NJOF, situated at 1705 US-46, Suite 6B, Ledgewood, NJ 07852. This recall is for a single lot, 23JUN031, due to subpotent Bromfenac levels (<90%). This recall action has been prompted by a thorough investigation into a stability deviation, which conclusively established that the stability data for our PMB Solution product does not support the assigned 360-Day expiration date. As a result, we have identified one unexpired batch of PMB Solution, carrying the 360-Day BUD labeling.
