

*The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.*

SCA Pharmaceuticals (SCA) is announcing a recall of eighty-three (83) lots of Oxytocin 30 units added to 0.9% Sodium Chloride 500 mL Bag, NDC 70004-085-44, due to out-of-specification test results for low potency. Testing of product lot reserve samples indicate that acceptable potency is not maintained through the currently labelled Beyond Use Date of 120 days. SCA’s investigation has concluded that the out-of-specification results are applicable to all lots currently within expiry for this specific NDC. SCA has received one adverse event report from one provider for lack of effect, associated with lots 1222042870 and 1222043033. A Health Hazard Assessment was performed to evaluate risk of patient harm from the administration of sub-potent oxytocin. Based on a Health Hazard Assessment, which evaluates severity of the risk along with probability and detectability, the risk of patient harm is low.
