

*The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.*

Sagent Pharmaceuticals is recalling METHYLPREDNISOLONE ACETATE INJECTABLE SUSPENSION, USP. This recall is being issued out of an abundance of caution to the wholesaler and hospital level. The product is being recalled due to the potential for the presence of black particulates in the drug product.

Administration of an injectable product that is intramuscular, Intra-articular, or intralesional administration that contains particulate matter may result in local irritation or swelling in response to the foreign material. To date, Sagent Pharmaceuticals has not received any reports of adverse events related to this recall.
