

*The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.*

On August 17th, Padagis US LLC initiated a wholesale level recall of one batch of **Triamcinolone Acetonide Cream USP, 0.1% 80 g**, in the marketplace. This recall has been extended to the pharmacy level. Customers that may have further distributed this product are requested to contact their customers and notify them immediately of this product recall.

Batch 2CT0486 is being recalled due to a trend of product complaints reporting the product to have a gritty texture. The texture change is caused by larger oil phase droplets inherent to the formulation. At this time, no serious adverse events have been reported or are known.

**Product: Triamcinolone Acetonide Cream USP, 0.1% 80 g**

**NDC: 45802-064-36**

**Strength: 0.1%**
