

## Resource for Candidates: List of Schools Offering 16 Semester Units of Remedial Pharmacy Education

In an effort to assist candidates seeking remedial pharmacy education required after four (4) failed attempts at the California Practice Standards and Jurisprudence Examination for Pharmacists (CPJE) or North American Pharmacist Licensure Examination (NAPLEX), the Board surveyed schools of pharmacy accredited by the Accreditation Council for Pharmacy Education (ACPE) to identify schools offering remedial pharmacy education. Of the schools surveyed in October 2021, the list below represents schools that indicated they offer remedial education and wish to be listed on the Board's Web site.

Please be aware that there may be additional programs at other ACPE accredited schools that fit California's requirement for remedial education as required by California Business and Professions Code section 4200.1 and Title 16, California Code of Regulations section 1725. In essence the required education must: 1) Be comprised of at least 16 semester units in an ACPE accredited school of pharmacy and 2) Require a transcript with units posted. The Board provides the following information as a resource to candidates seeking remedial pharmacy education programs in order to complete the required 16 semester units.

While the Board provides this information as a resource, it is the candidate's responsibility to confirm with the chosen school of pharmacy that the additional remedial education courses selected comply with California Business and Professions Code section 4200.1 and Title 16, California Code of Regulations section 1725.
