

*The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.*

Mylan Pharmaceuticals Inc. (a Viatris company) is conducting a recall at the retailer level of the below-listed lots of Amnesteem® (Isotretinoin Capsules, USP) 40 mg, packaged in a carton of 30 containing 3 prescription packs of 10 capsules. The initial recall notice from February 24, 2026 was to the wholesale level.

These lots are being recalled out of an abundance of caution after testing some of the capsules produced out-of-specification dissolution results.

These lots were distributed in the United States between Nov 5, 2024, and Jun 23, 2025.

To date, no reports of adverse events associated with these lots have been received. The risk associated with this event is considered to be negligible.
