

The Board of Pharmacy has received notice of the following product recall:

Braun Medical Inc. (BBMI) is recalling one (1) batch of product due to a failure in ongoing stability data:

Product Catalog Number	Product Description	Batch Number	Distribution Date Range	Expiration Date
3145-11 (NDC: 00264-3145-11)	2g Ceftazidime for Injection USP (2g) and Dextrose for Injection USP (50 ml), Duplex Container	H8J812	06 Mar 2019 - 20 Sep 2019	31 July 2020

During stability testing of Batch H8J812, test results were found to exceed the specification limits for High Molecular Weight Polymers (HMWP) at the 82 week stability interval. This recall is being executed to the distributor and hospital/end user level.

The Board of Pharmacy strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.
