

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Nephron 503B Outsourcing Facility is initiating this recall out of an abundance of caution. FDA notes sterility assurance concerns could result in serious infections which may be life-threatening. Although there is no evidence of contamination, Nephron has decided in the interest of patients, to proceed with this recall process.

This is to inform you of a voluntary product recall involving:

- **4% Sodium Bicarbonate Injection, USP 4.2 g/50 mL (84 mg/mL)**
