

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Becton, Dickinson and Company (“BD”) is conducting a Drug Recall of specific lots of the BD ChloraPrep™ Clear - 1 mL and FREPP™ Clear 1.5 mL Applicators, as identified below.

The BD ChloraPrep™ Clear - 1 mL and FREPP™ Clear 1.5 mL Applicators with paper lidding are being recalled due to potential breach of sterility in the packaging, due to wrinkles in the paper lidding which may extend to the seal area.

If the sterile barrier is compromised, patients and users may be exposed to microbial contamination. Potential health consequences may include no injury, localized infection, or, less commonly, more serious infection requiring medical treatment, antimicrobial therapy, procedural intervention, or hospitalization. In rare cases, particularly in critically ill or immunocompromised patients, severe infection could become life-threatening.

Patients who may have been exposed should be monitored according to clinical judgment for signs or symptoms of infection, and any suspected infection should be evaluated and treated promptly. Patients who may have been exposed without complications do not require follow up.

To date, there have been no complaints or adverse events reported for this issue worldwide.

PRODUCT NAME: BD ChloraPrep™ Clear - 1 mL Applicators, 60 Applicators per Inner Carton

NDC NUMBER: 54365-400-31
