683289, 684683, 696426	9/27/21, 10/5/21, 10/18/21
685955, 686881, 689026, 689769	10/24/21, 10/26/21, 11/1/21
690660, 691788, 692765, 693707	11/8/21, 11/14/21, 11/16/21, 11/20/21

APS Pharmacy (Drug Depot Inc., CA license NSC 101563) prefilled syringes have historically been compounded using 1ml BD brand syringes. The BD brand syringes have gone on shortage due to COVID-19 supply-chain issues. As a result, they became unavailable to APS, and we were forced to find an alternative source.

The recall was initiated based on one complaint reporting content coloration changes and visible particulate that appears to be related to the alternative syringe's plunger tip. The potential impact of this recall could be as large as 192 patients, 62 of which reside in California. We have begun outreach to patients and as of the writing of this notification we have not received any reports of adverse effects associated with this recall.
