

*The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.*

Padagis US LLC is initiating a retail / pharmacy level recall for one batch of Nystatin Cream 15 g.

The batch, lot number 205060, is being recalled due to low out of specification assay results performed during long-term stability testing. There have been no associated adverse event or lack of efficacy reports for the affected batches. Use of the affected product is not expected to pose a significant patient safety risk.

This action is being taken with the knowledge of the Food and Drug Administration and is being issued to the retail level.
