

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

EMD Serono is recalling **two Lot Numbers** of:

**Cetrotide® (cetrotorelix acetate for injection) 0.25mg**

**NDC #44087-1225-1**

**Lot Number 8J025A Expires 09/2020**

**Lot Number 8J025B Expires 09/2020**

This recall has been initiated due to EMO Sereno receiving two complaints from the market reporting missing rubber stoppers in the drug vial. Both complaints have been investigated and confirmed by our manufacturing site. As the rubber stopper is part of the container closure system, missing stoppers in the vial could potentially lead to lack of sterility assurance.

Lot Number 8J025A was shipped between the dates October 16 - 29, 2019, and Lot Number 8J025B between the dates October 29, 2019 and November 6, 2019. This recall is to the retail/pharmacy level.
