

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Rising Pharma Holdings, Inc is initiating a recall at the Retail Level for Cyproheptadine Hydrochloride Syrup 2mg /5 mL, Batch No's: # CR2518, # CR2601, # CR2602, # CR2603, # CR2604 & # CR2605, 473 mL in 1 bottle, Exp date: 2027/11 to 2028/02.

This recall is being initiated following multiple product complaints regarding the appearance of Cyproheptadine Hydrochloride Oral Solution USP, 2 mg/5 mL. The affected units exhibited cloudiness together with white-to-yellow flocculent and floating particulate matter within the solution.

Based on the investigation and supporting testing data, the particulate appears to be a formulation-derived precipitate / flocculate of the product's own constituents, and the defect may be inherent to the formulation. Therefore, Rising Pharma Holdings, Inc. is voluntarily recalling the affected lots as a precautionary measure and in keeping with its commitment to product quality.

We have also conducted a health hazard assessment, and based on the assessment, the overall risk associated with this defect is very low and no impact on patient health and safety is anticipated.

This product was shipped between February 2026 - April 2026.
