

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

This notice is to inform you of a product recall involving **Glycopyrrolate Oral Solution**.

This recall is being carried out to the Hospital/Pharmacy level.

This recall has been initiated due to an out-of-specification result for an unidentified impurity detected during routine stability testing. Use of this product may result in temporary or medically reversible adverse health consequences; however, the probability of serious adverse health consequences is considered remote, and no adverse events have been reported to date.
