

*The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.*

This is to inform you of a product recall involving Thyroid Tablets, USP 30 mg, NDC 69680-166-00, Lot 504950, Expiration Date 9/30/2026 by Vitruvias Therapeutics.

Thyroid, USP is a natural preparation derived from porcine thyroid glands composed of levothyroxine and liothyronine, and used to treat hypothyroidism (underactive thyroid). This recall has been initiated because testing showed an upward T3 assay trend, indicating the potential that this lot is superpotent. The product may have greater than the labeled amount of Liothyronine (T3). Patients being treated for hypothyroidism who receive superpotent Thyroid, USP may experience signs and symptoms of hyperthyroidism (overactive thyroid) which include, but are not limited to, weight loss, heat intolerance, fatigue, muscle weakness, hypertension, chest pain, rapid heart rate, or heart rhythm disturbances. Pregnant women who take superpotent Thyroid, USP may also experience negative maternal and fetal outcomes including miscarriage and/or impairment to fetal development.

This product was distributed from 1/31/2025 through 9/30/2025 nationwide in the USA to Vitruvias Therapeutics' direct accounts.
