

The Board of Pharmacy has received notice of the following product recall. The Board strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.

Camber Pharmaceuticals, Inc. has issued a recall for Ketorolac Tromethamine Injection, USP 60 mg/2 ml (30 mg/ml). The recall has been initiated, due to a market complaint received from Quva Pharma stating that, "During the incoming inspection process, a vial was observed with foreign matter in it."

This recall is a Pharmacy Level Recall and is for batches AS1240347A, AS1240144A, AS1240145A, AS1240146A, and AS1250295A which are referenced below. This recall is being conducted with the knowledge of the Food and Drug Administration.
