Aurobindo is recalling the product above because this batch was manufactured in a processing area in which water leakage was observed. Although there was no direct contact of any component with the subject water during the leakage events, the subject batches are being recalled out of an abundance of caution. No other Gabapentin batches are affected.

Aurobindo began shipping these batches to customers nationwide August 24, 2018 through September 28, 2019. This recall is being carried out to the retail level.

The Board of Pharmacy strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.
