0069-0106-01	AL8590	10/2020	Elelyso® (taliglucerase alfa) for injection 200-units/vial for intravenous infusion only
0069-0106-01	AT2927	04/2020	Elelyso® (taliglucerase alfa) for injection 200-units/vial for intravenous infusion only

Pfizer Inc. is recalling the above referenced lots of Elelyso® (taliglucerase alfa) 200-units/vial for intravenous infusion only, due to the potential for the metal crimp, on the cap of the vial, to be lifted or dislodged while attempting to flip off the orange colored plastic button. Pfizer completed a Health Hazard Assessment which concluded the use of the impacted products has a low probability of being associated with adverse events such as reduced therapeutic efficacy or moderate to severe adverse events such as systemic infections. The potential risk to the patient arising from this issue is considered to be low.

The recall of the above referenced lots of **Elelyso® (taliglucerase alfa) 200-units/vial** is being conducted to the **Hospital/Institution Level**.

The Board of Pharmacy strongly encourages pharmacies to immediately review their quality assurance and recall policies and procedures to determine if any corrective action is required.
