## Emergency Prescription Assistance Program Activated due to the California Wildfires

**Beginning January 17, 2025**, the Federal Department of Health and Human Services (HHS) Assistant Secretary for Preparedness and Response (ASPR) is implementing a new Emergency Prescription Assistance Program (EPAP in response to devastation caused by the wildfires in the State of California.

**This communication is your pharmacy's notice that the EPAP has been activated by HHS ASPR.** Express Scripts administers this emergency prescription program on behalf of HHS and will immediately begin adjudicating claims for prescription drugs, vaccines, specific medical supplies and limited durable medical equipment (DME) for patients impacted by the disaster.

This program differs from the state-declared emergencies that trigger Express Scripts Refill-Too-Soon procedures for applicable sponsors and members. The EPAP is supported by HHS and intended **ONLY** for persons **without insurance coverage** who are **impacted in the following California zip codes** as defined by the federally declared disaster and who present a valid prescription or refill. All prescriptions processed using EPAP are \$0 copay for the patient.

**By receiving this communication, your pharmacy is already in the EPAP network. No further action is required to process claims.**
