STATEMENT OF FACTS

Pharmacy Technician Cecilia Romero

42. On or about January 10, 2007 at 1800 hours, Cecilia Romero (“Romero”), a pharmacy technician employed since May 2003 by Respondent, Blain Pharmacy and Consulting, dba Lake Arrowhead Village Pharmacy located at 28200 Hwy. 189 in Lake Arrowhead, CA, was arrested by San Bernardino County Sherriff’s deputies for the following violations: Vehicle Code sec. 23152, subd. (a) [driving under the influence of alcohol or drugs, a misdemeanor]; Vehicle
Code sec. 14601, subd. (a) [driving on a suspended license, a misdemeanor]; Penal Code sec. 484, subd. (a) [petty theft, a misdemeanor]; and Code sec. 4060 [possession of a controlled substance without a prescription, a misdemeanor].

43. The circumstances of the arrest are that during a routine traffic stop, deputies observed Romero to be nervous, fidgety, clenching her teeth and continually moving her hands and fingers. Romero was asked to perform, and did fail a field sobriety test.

44. Romero admitted to deputies that she worked at Respondent pharmacy and was coming from there on her way to drop off prescription medications for a client on her way home. A subsequent search of Romero’s vehicle uncovered a white paper bag from Respondent pharmacy and three (3) green plastic bottles all containing pills. Two of the bottles had prescription labels, prescribed to a client of Respondent pharmacy. The third bottle contained white pills with no prescription label on it. A fourth bottle was found in Romero’s purse, that contained five, white, round pills.

45. Romero told deputies that the smaller bottle with five pills was Tylenol III with codeine that was prescribed to her, but she had no prescription to document that. Romero stated that the large bottle contained approximately 100 Vicodin tablets that she had taken to put aside for a customer that was coming in the next day.

46. A deputy phoned Respondent Dresser, the pharmacy owner and pharmacist-in-charge concerning Romero’s story. Dresser stated that she was not aware of any prescriptions that Romero was supposed to be delivering, and directed the deputy to the pharmacist that had been on duty. Respondent Dresser further admitted that the two pill bottles that had no prescription labels should not have left the pharmacy and that it was against their policy to allow people to remove prescription bottles of pills without prescription labels.

47. The deputy phoned the pharmacist in charge who told him that he had worked all day with Romero and that when they closed the store, Romero was to take two bottles of prescription medication to one of their customers for delivery on Romero’s way home. The pharmacist stated that he did not give Romero permission, nor did he know that Romero had taken a bottle of Vicodin from Respondent pharmacy, nor that Romero had taken the bottle of Tylenol III with
codeine. The pharmacist stated if he had known, he would not have allowed Romero to remove
the bottles from the pharmacy because they are not allowed to remove prescription bottles
containing pills without prescription labels.

48. A deputy asked Romero if she had permission from the staff pharmacist or
Respondent Dresser, the pharmacy owner, to remove the Vicodin and Tylenol III with Codeine
from Respondent pharmacy and responded, “No”. Romero was asked when she had last used
Methamphetamine, to which she stated that she had snorted a line earlier that day.

49. The evidence seized by deputies from Romero were: a bottle of Vicodin containing
119 pills; a bottle of Tylenol III with Codeine containing 5 pills; a bottle of Hydrocodone
containing 20 pills; and a bottle of Soma containing 34 pills.

50. Respondent Dresser terminated Romero’s employment with Respondent pharmacy on
or about January 11, 2007, following Romero’s arrest.

Pharmacy Technician Crystal Hutson

51. Crystal Hutson (“Hutson”) was employed by Respondent pharmacy as a pharmacy
technician from on or about February 7, 2003 until March 5, 2008, when Hutson’s employment
was terminated by Respondent Dresser for engaging in “deceptive, misleading or fraudulent
acts”; admitting to diverting drugs from Respondent pharmacy; admitting to filling prescriptions
without a pharmacist’s supervision; failure to enter into a chemical dependency program; and
billing Medi-cal for the wrong drugs.

52. Between January 2007 and July 2007, Hutson diverted a total of 980 Hydrocodone-
containing tablets, including Norco 10/325 mg and Vicoprofen, through unauthorized
prescriptions ostensibly from Dr. Lawrence Walker, M.D.
