FACTS

16. Respondent was employed as a Pharmacist-in-Charge at WalMart Store No. 10-1914 ("WalMart") from October 12, 2015, through July 26, 2016. WalMart terminated Respondent on or about July 26, 2016.

17. WalMart's pharmacy would receive prescription refill requests by either a telephone voice message, a computer/electronic application, or an in-person request. WalMart staff would then send the original prescriber a request for authorization electronically, by fax, or by telephone. Until the prescriber authorizes the refill, the refill request would remain in a Refill Authorization Queue (the "Queue").

18. At some point during Respondent's employment with WalMart, a staff pharmacist observed patient refill requests were authorized in a suspiciously quick timeframe by Respondent. The pharmacist suspected Respondent was not performing her pharmacist duties in contacting the prescriber to receive refill authorizations, but was approving the refills herself. Staff pharmacists called various prescriber's offices and verified that the prescribers did not authorize several refill authorizations completed by Respondent.

19. On or about August 14, 2017, two Board investigators interviewed Respondent regarding her termination from WalMart. During that interview, Respondent admitted that every shift she worked, she would pull prescriptions waiting in the Queue and enter into WalMart's computer database on the customer's existing prescription a quantity of 90 pills plus three refills, which equals a 12-month supply. Respondent admitted that she entered these refills without obtaining prescriber approval. Respondent admitted that she began this practice in June 2016, even though refills she improperly authorized were filled as early as February 6, 2016. Respondent confirmed that she was responsible for the approximately 800 prescriptions from June 1, 2016 to December 3, 2016, which WalMart had to reverse because Respondent improperly authorized refills.

20. WalMart provided the Board with a list of approximately 1,316 prescriptions Respondent initially added unauthorized refills to. WalMart reversed the payments for all of these prescriptions. The prescriptions at issue were filled between February 6, 2016, and December 3, 2016. The prescriptions at issue are summarized in the following chart:
