BEFORE THE
BOARD OF PHARMACY
DEPARTMENT OF CONSUMER AFFAIRS
STATE OF CALIFORNIA

In the Matter of the Petition for
Reinstatement of:

JENNIFER WEST-LACKEY
Pharmacist's License No. RPH 41647
Respondent.

OAH No. 2009070408

DECISION

This matter was heard on July 16, 2009, in Los Angeles by a quorum of the Board of Pharmacy as follows: Kenneth Schell, President; Randy Kajioka, Vice-President; Shirley Wheat; Gregory Lippe; Ramon Castellblanch; Stanley Weisser; and Rob Swart.

Oral and documentary evidence having been received in the hearing and the matter submitted and considered in closed session, the Board of Pharmacy finds and decides as follows:

FACTUAL FINDINGS

1. On or about April 23, 1988, the Board of Pharmacy (Board) issued pharmacist's license no. RPH 41647 to Jennifer Jean West-Lackey (petitioner). Said pharmacist license has been revoked and currently is not in full force or effect for the reasons described below.

2. (A) Effective on May 2, 2003, pursuant to a Stipulation, Decision, and Order in the matter of the Accusation against Jennifer West-Lackey, Case No. 2459,
the Board revoked the pharmacist's license previously issued to petitioner, stayed the revocation, and placed respondent on probation for five (5) years on certain terms and conditions, including that she complete treatment in the Pharmacists Recovery Program, participate in random drug screening, abstain from drugs and alcohol use, and pay costs of $6,500.

(B) The Board placed respondent on probation for unprofessional conduct because she admitted that, while employed as a pharmacist at a retail establishment in Folsom in early 2000, she committed acts involving moral turpitude, dishonesty, fraud, and deceit by stealing Xanax and Ritalin from the pharmacy in violation of BPC section 4301, subdivision (f). She furnished and dispensed Xanax and Ritalin to herself without having prescriptions in violation of BPC section 4301, subdivision (o), in conjunction with sections 4059, subdivision (a), and 4060, and section 4301, subdivision (j), in conjunction with Health and Safety Code sections 11158, subdivision (a), 11170, and 11377. She also administered Xanax and Ritalin to herself to the extent that was dangerous to herself or such that her ability to safely conduct the practice of pharmacy was impaired in violation of BPC section 4301, subdivision (h).

3. Two years later, on July 5, 2005, in Case No. 2867, the Executive Officer of the Board made and filed an Accusation and Petition to Revoke Probation against petitioner. The Accusation and Petition to Revoke Probation was properly served upon petitioner who then failed to file a Notice of Defense, waiving her right to a hearing.

4. (A) On November 23, 2005, pursuant to a Default Decision and Order in Case No. 2867, the Board revoked respondent's probation, reinstated its order of revocation, and revoked the pharmacist's license issued to respondent. The Board also ordered respondent to pay for its reasonable costs of investigation and enforcement in the amount of $2,259.50.

(B) Under the Default Decision and Order, the Board determined that petitioner violated probation and subjected her license to discipline by failing to comply with the terms and conditions of her probation. The Board found that petitioner used alcoholic beverages to the extent or in a manner dangerous or injurious to herself or other persons in violation of BPC section 4301, subdivision (h); and committed acts involving moral turpitude, dishonesty, fraud, deceit, or corruption by lying during a mental health examination, lying to her health support group, and falsely documenting attendance at various recovery groups as part of her participation in the Pharmacists Recovery Program in violation of BPC section 4301, subdivision (f). The Board also found that respondent violated conditions of her probation by failing to obey state laws substantially related to or governing the practice of pharmacy, to wit: BPC section 4301, subdivisions (h) and (f); failing to successfully complete her treatment contract and having been terminated from the Pharmacists
Recovery Program; failing to submit to random body fluid test; and failing to completely abstain from the possession or use of alcohol.

5. The Board's Order revoking the pharmacist license issued to petitioner became effective on December 23, 2005. It has now been three and one-half years since the revocation of petitioner's license.

6. On or about April 14, 2009, petitioner filed a Petition for Reinstatement of Certificate to Practice Pharmacy Revoked Through Administrative Disciplinary Action with the Board. In support of her petition, she also submitted letters of recommendation, continuing education certificates and documents, and documentation of her participation in recovery programs and employment.

7. (A) Petitioner admits that she was addicted to narcotics, hypnotics, and alcohol. While working as a pharmacist, she used Ritalin during the day. She used Xanax and alcohol at night to relax. She attended several drug and alcohol recovery programs but did not complete them. After she stopped working as a pharmacist in July 2004, petitioner used only alcohol.

(B) On November 15, 2006, which was over two years after the revocation of her pharmacist's license, petitioner stopped drinking alcoholic beverages. On November 22, 2006, she enrolled in two out-patient chemical dependency and recovery programs. On weekdays from November 22, 2006, through January 2, 2007, petitioner attended and successfully completed the New Dawn Recovery Program in Citrus Heights. She met all of her treatment goals there, including abstinence, active participation in the recovery program, establishing a sober support group, and completing all of her assignments. She demonstrated behavioral changes, studied boundaries, worked on her communication skills, and addressed self-esteem and assertiveness issues. She gained insight into her disease of addiction, learned coping skills without the use of drugs. Upon discharge from the New Dawn Recovery Program, petitioner was happy, confident, and healthy. In accordance with her after-care program, she then attended 12-step meetings four times weekly and the New Dawn Recovery Program's after-care program on Saturdays.

(C) From November 22, 2006, through November 2007, petitioner also completed the 12-month treatment program at Kaiser Chemical Dependency Services in Folsom. Every week since November 2006, she has been attending approximately four 12-step meetings and one meeting with her sponsor. Since completing the formal Kaiser program in November 2007, she has been receiving individual counseling and recovery support from a Kaiser licensed clinical social worker who indicates that petitioner "has made tremendous growth in her recovery" and changes in her life and is committed to her recovery from drug and alcohol addiction. After undergoing surgery to donate her kidney to a relative, petitioner worked closely with
persons in her support system to monitor her use of pain medication and then took only minimal dosages of pain mediation.

8 Petitioner has abstained from drugs and alcohol and has been clean and sober now for two years and eight months. She continues to attend three to four meetings each week of Alcoholics Anonymous (AA) and has consulted with the same AA sponsor for the past two years. Petitioner is also an AA sponsor and has held different positions in her AA organization. In addition, petitioner meets with her addiction recovery counselor at the Kaiser program once monthly.

9. Since March 2006, petitioner has been employed as a customer service representative at Health Net of Rancho Cordova. She has received excellent performance evaluations and been promoted in her classification. As a Customer Service Representative III, she answers questions regarding policies and procedures, helps to train new hires, and participates as a member of an emergency response team. Petitioner participated in team meetings and worked with her supervisor, operated in compliance with laws and regulations, followed schedules, and completed all required training. She has been a competent and resourceful employee for Health Net. If allowed to practice pharmacy again, petitioner hopes to transfer to the pharmacy department at Health Net.

10. Petitioner is remorseful and apologizes for her violations that led to the revocation of her pharmacist’s license. She admits that she has a disease and/or addiction to drugs and alcohol and recognizes that her recovery from substance abuse is a long-life struggle. Petitioner is likewise candid about her addiction. If her license is reinstated and she starts working again as a retail pharmacist with access to drugs, petitioner realizes that she may start thinking about her drug addiction and she will have to confront that issue. However, petitioner values the life that she has rebuilt and is committed not to do anything to jeopardize that life. She has developed a strong support group comprised of her AA group members and sponsor, Kaiser therapist, and friends and family. Petitioner has learned coping skills as well as the efficacy of calling persons in her support group to maintain her sober lifestyle.

11. (A) From February 2007 through April 2009, petitioner completed 76 hours of continuing education classes. The Board approved 71.5 of those hours. Petitioner also attends monthly meetings of the Sacramento Valley Pharmacist Association and the Sacramento Valley Society of Health System Pharmacists.

(B) Petitioner has paid the Board for all of its costs of investigation and prosecution. Under Case No. 2459, for which she was placed on probation in 2003, petitioner paid the costs of $6,500. Under Case No. 2867, which resulted in the revocation of her license in 2005, petitioner paid the costs of $2,369.

(C) Petitioner is active in her church in Citrus Heights and committed to her faith. She teaches children at Sunday School and Vacation Bible School, is a
lector at Sunday services, participates in the choir, and acts as a church and faith mentor to a junior high student.

12. Petitioner is married and has a teenage son. She trains for and runs endurance races. Petitioner's husband and son love and support her. She testified in a sincere and credible manner.

Based on the foregoing findings of fact, the Board of Pharmacy makes the following determination of issues:

LEGAL CONCLUSION

Grounds exist to grant the petition to reinstate petitioner's pharmacist's license pursuant to Business and Professions Code section 4309 and Government Code section 11522, based on Findings 1 – 12 above. Petitioner has demonstrated significant progress in her rehabilitation and recovery from drug and alcohol addiction as well as from her past violations of the Pharmacy Law that led to the revocation of her license. She has completed two recovery treatment programs and has continued to attend group and individual support and therapy sessions. Petitioner has also been an excellent employee at Health Net as a customer service representative and actively participates in community activities. Because her recovery from her drug and alcohol addiction is relatively recent and she has not worked as a pharmacist for five years, public interest, welfare, and safety require that petitioner's pharmacist's license be reinstated under probationary conditions to ensure not only public protection but also her continued recovery.

Petitioner shall pay any costs associated with probation monitoring as determined by the Board each and every year of probation. Such costs shall be payable to the Board on a schedule as directed by the Board or its designee. Failure to pay such costs by the deadline(s) as directed shall be considered a violation of probation.

9. Status of License

Petitioner shall, at all times while on probation, maintain an active, current license with the Board, including any period during which suspension or probation is tolled. Failure to maintain an active, current license shall be considered a violation of probation.

Any month during which this minimum is not met shall toll the period of probation, i.e. the period of probation shall be extended by one month for each month during which this minimum is not met. During any such period of tolling of probation, petitioner must nonetheless comply with all terms and conditions of probation.

Within thirty (30) days of the effective date of this Decision, petitioner shall contact the Pharmacists Recovery Program for evaluation, and shall immediately thereafter enroll, successfully participate in, and complete the treatment contract and any subsequent addendums as recommended and provided by the PRP and as approved by the Board. The costs for PRP participation shall be borne by petitioner.

If petitioner is currently enrolled in the PRP, said participation is now mandatory and as of the effective date of this Decision is no longer considered a self-referral under Business and Professions Code section 4363, subdivision (c)(2). Petitioner shall successfully participate in and complete her current contract and any subsequent addendums with the PRP.

Failure to timely contact or enroll in the PRP, or successfully participate in and complete the treatment contract and/or any addendums, shall be considered a violation of probation.

Probation shall be automatically extended until petitioner successfully completes the PRP. Any person terminated from the PRP program shall be automatically suspended upon notice by the Board. Petitioner may not resume the practice of pharmacy until notified by the Board in writing. The Board shall retain jurisdiction to institute action to terminate probation for any violation of this term.
Any confirmed positive test for alcohol or for any drug not lawfully prescribed by a licensed practitioner as part of a documented medical treatment shall result in the automatic suspension of practice by petitioner and shall be considered a violation of probation. Petitioner may not resume the practice of pharmacy until notified by the Board in writing.

Petitioner shall work in a pharmacy setting with access to controlled substances for six (6) consecutive months before successfully completing probation. If petitioner fails to do so, probation shall be automatically extended until this condition has been met. Failure to submit to testing as directed shall constitute a violation of probation. Upon request of the Board or its designee, petitioner shall provide documentation from a licensed practitioner that the prescription for a detected drug was legitimately issued and is a necessary part of the treatment of petitioner. Failure to timely provide such documentation shall be considered a violation of probation. Any confirmed positive for alcohol or for any drug not lawfully prescribed by a licensed practitioner as part of a documented medical treatment shall be considered a violation of probation and shall result result in the automatic suspension of practice of pharmacy by petitioner. Petitioner may not resume the practice of pharmacy until notified by the Board in writing.

During suspension, petitioner shall not enter any pharmacy area or any portion of the licensed premises of a wholesaler, veterinary food-animal drug retailer, or any other distributor of drugs which is licensed by the Board, or any manufacturer, or where dangerous drugs and devices or controlled substances are maintained. Petitioner shall not practice pharmacy nor do any act involving drug selection, selection of stock, manufacturing, compounding, dispensing or patient consultation; nor shall petitioner manage, administer, or be a consultant to any licensee of the Board, or have access to or control the ordering, manufacturing, or dispensing of dangerous drugs and controlled substances. Petitioner shall not resume practice until notified by the Board.

During suspension, petitioner shall not engage in any activity that requires the professional judgment of a pharmacist. Petitioner shall not direct or control any aspect of the practice of pharmacy. Petitioner shall not perform the duties of a pharmacy technician or a designated representative for any entity licensed by the Board.

Failure to comply with this suspension shall be considered a violation of probation.

16. Abstain from Drugs and Alcohol Use

Petitioner shall completely abstain from the possession or use of alcohol, controlled substances, dangerous drugs and their associated paraphernalia except when the drugs are lawfully prescribed by a licensed practitioner as part of a documented medical treatment. Upon request of the Board or its designee, petitioner
shall provide documentation from the licensed practitioner that the prescription was legitimately issued and is a necessary part of the treatment of petitioner. Failure to timely provide such documentation shall be considered a violation of probation.

Petitioner shall ensure that she is not in the presence of or in the same physical location as individuals who are using illicit substances even if petitioner is not personally ingesting the drugs. Any possession or use of alcohol, controlled substances, or their associated paraphernalia not supported by the documentation timely provided, and/or any physical proximity to persons using illicit substances shall be considered a violation of probation.

17. Violation of Probation

If petitioner has not complied with any term or condition of probation, the Board shall have continuing jurisdiction over petitioner, and probation shall automatically be extended until all terms and conditions have been satisfied or the Board has taken other action as deemed appropriate to treat the failure to comply as a violation of probation, to terminate probation, and to impose the penalty which was stayed.

If petitioner violates probation in any respect, the Board, after giving petitioner notice and an opportunity to be heard, may revoke probation and carry out the disciplinary order which was stayed. Notice and opportunity to be heard are not required for those provisions stating that a violation thereof may lead to automatic termination of the stay and/or revocation of the license. If a petition to revoke probation or an accusation is filed against petitioner during probation, the Board shall have continuing jurisdiction and the period of probation shall be automatically extended, until the petition to revoke probation or accusation is heard and decided.

18. Completion of Probation

Upon written notice by the Board or its designee indicating successful completion of probation, petitioner's license will be fully restored.

IT IS SO ORDERED.

ACCUSATION

FIRST CAUSE FOR DISCIPLINE
(Using Alcoholic Beverages in a Dangerous or Injurious Manner)

7. Respondent is subject to disciplinary action pursuant to Code section 4301, subdivision (h), on the grounds of unprofessional conduct, in that she used alcoholic beverages to an extent or in a manner dangerous or injurious to herself, other persons, and/or the public as follows:

   Respondent, by her own admission, drank alcohol 3 to 4 times per week for at least one (1) month before testing positive on July 30, 2004, for ethylglucuronide (alcohol) during a urine toxicology screening. Respondent admitted that she would drink when she was alone and when her husband was away on business and that she would drink an entire magnum of wine at a time to the point where she would "pass out."

SECOND CAUSE FOR DISCIPLINE
(Acts Involving Moral Turpitude, Dishonesty, Fraud, Deceit, or Corruption)

8. Respondent is subject to disciplinary action pursuant to Code section 4301, subdivision (f), on the grounds of unprofessional conduct, in that during her participation in the Pharmacists Recovery Program (PRP), ordered by the Board as a part of her probation, she committed acts involving moral turpitude, dishonesty, fraud, deceit, or corruption as follows:

///
a. During a mental health examination on August 11, 2004 designed to
determine Respondent’s fitness to practice, Respondent denied that she had been using alcohol
prior to the urine toxicology screening of July 30, 2004. In fact, Respondent had been drinking
alcohol 3 to 4 times per week for approximately one (1) month prior to the toxicology screening
and drank an entire magnum of wine on each occasion, to the point where she would "pass out",
as set forth in paragraph 7 above. Respondent’s dishonesty rendered the assessment invalid.
b. During Respondent’s participation in the PRP health support group,
Respondent told lies to the group, including about her sobriety date, rendering the group process
ineffective and the progress reports from the group’s leader inaccurate.
c. Respondent admitted that she had falsely documented attendance at
various recovery groups.
