1 **PENDING CIVIL PROCEEDINGS**

2 11. There is also now-pending civil litigation between all of the above-named
3 Respondents, except for Senior Care Pharmacy Services HB, Inc. and Senior Care Pharmacy
4 Services Fairfield Inc. and the Board.

5 12. Respondents, except for Senior Care Pharmacy Services HB, Inc. and Senior Care
6 Pharmacy Services Fairfield Inc., and other plaintiffs filed suit against the Board and other
7 defendants in *Senior Care Pharmacy Services, Inc. et al. v. California Board of Pharmacy, et al.*,
8 Case No. 30-2020-01140931-CU-PO-CXC in Orange County Superior Court. That case was
9 decided on the Board's Anti-SLAPP motion, resulting in an award of attorneys' fees and costs of
10 \$75,643.95 payable by plaintiffs to the Board by order of the Superior Court dated February 26,
11 2021. Additional proceedings in that case, including debtor examinations and other enforcement
12 proceedings, are still pending.

13 13. Respondents, except for Senior Care Pharmacy Services HB, Inc. and Senior Care
14 Pharmacy Services Fairfield Inc., and other plaintiffs appealed that decision to the California
15 Court of Appeal (Fourth District). That appeal, *Senior Care Pharmacy Services, Inc. et al. v.*
16 *California Board of Pharmacy, et al.*, Case No. G059651, is partially briefed and still pending
17 before the California Court of Appeal.

18 **ADVISEMENT AND WAIVERS**

19 14. Respondents have carefully read, fully discussed with counsel, and understand the
20 charges and allegations in Second Amended Accusation No. 6175, Second Amended Statement
21 of Issues Nos. 6409 and 6156, and First Amended Accusation No. 6161. Respondents have also
22 carefully read, fully discussed with counsel, and understand this Stipulated Surrender of Licenses
23 and Order.

24 15. Respondents are fully aware of their legal rights in this matter, including the right to a
25 hearing on the charges and allegations in the Second Amended Accusation, Second Amended
26 Statements of Issues, and the First Amended Accusation; the right to confront and cross-examine
27 the witnesses against them; the right to present evidence and to testify on their own behalf; the
28 right to the issuance of subpoenas to compel the attendance of witnesses and the production of

documents; the right to reconsideration and court review of an adverse decision; and all other rights accorded by the California Administrative Procedure Act and other applicable laws.

16. Respondents are also fully aware of their legal rights in the pending civil matters, including to pursue their appeal in Court of Appeal Case No. G059651, and any remaining rights in Orange County Superior Court Case No. 30-2020-01140931-CU-PO-CXC, or otherwise.

17. Respondents hereby voluntarily, knowingly, and intelligently waive and give up each and every right set forth above.

SATISFACTION AND DISMISSAL OF PENDING CIVIL PROCEEDINGS

18. Respondents acknowledge and accept their obligation to pay to the Board the award of attorneys' fees and costs of \$75,643.95 ordered in Orange County Superior Court Case No. 30-2020-01140931-CU-PO-CXC. In partial consideration for this agreement, the Board agrees to the following discount for early payment: if the entire debt is paid within ninety (90) days of the effective date of the Decision and Order issued by the Board in this matter, the Board will accept \$71,861.75 (a 5% reduction) in full satisfaction of this obligation. Failure to make full payment within that time period will cause the obligation to revert to the full amount of \$75,643.95.

19. Respondents agree that, within five (5) days of the effective date of a decision in this case, they will cause to be filed papers necessary to waive and abandon all rights they may have to contest or appeal that award or otherwise continue litigating. This will include the filing of a Request for Dismissal (Form CIV-110), with prejudice, in Orange County Superior Court Case No. 30-2020-01140931-CU-PO-CXC, and the filing of a Stipulated Request for Dismissal, also with prejudice, in California Court of Appeal Case No. G059651. The filing of the dismissals will not excuse Respondents from the obligation to pay the award of attorneys' fees and costs of \$75,643.95 to the Board as ordered by the Superior Court on February 26, 2021, or the reduced amount of \$71,861.75 if full payment is made within ninety (90) days. The Board may enforce the full award in any appropriate court, in addition to any other rights the Board may have.

CULPABILITY

20. Respondents Senior Care Pharmacy Services, Inc., Senior Care Pharmacy Services Fairfield, Inc., and Samitendu Banerjee hereby understand and agree that the charges and

1 allegations in Second Amended Accusation No. 6175 and First Amended Accusation No. 6161, if
2 proven at a hearing, constitute cause for imposing discipline upon their respective Pharmacy
3 Permits and Pharmacist License. Respondents Senior Care Pharmacy Services, Inc. and Senior
4 Care Pharmacy Services HB, Inc., hereby understand and agree that the charges and allegations in
5 Second Amended Statement of Issues Nos. 6409 and 6156, if proven at a hearing, constitute
6 cause for denial of their applications for Sterile Compounding Licenses and a Pharmacy Permit.

7 21. For the purpose of resolving these cases without the expense and uncertainty of
8 further proceedings, Respondents Senior Care Pharmacy Services, Inc., Senior Care Pharmacy
9 Services HB, Inc., Senior Care Pharmacy Services Fairfield Inc., and Samitendu Banerjee, hereby
10 agree that, at a hearing, Complainant could establish a factual basis for the charges and
11 allegations in Second Amended Accusation No. 6175, Second Amended Statement of Issues Nos.
12 6409 and 6156, and First Amended Accusation No. 6161, that those charges constitute cause for
13 discipline or denial, and that Respondents hereby give up their right to contest those charges.

14 22. Respondents Senior Care Pharmacy Services, Inc., Senior Care Pharmacy Services
15 HB, Inc., Senior Care Pharmacy Services Fairfield Inc., and Samitendu Banerjee, understand that
16 by signing this stipulation, they enable the Board to issue an order accepting the surrender of their
17 Pharmacy Permits and Pharmacist License, and affirming license denials, without further process.

18 CONTINGENCY

19 23. This stipulation shall be subject to approval by the Board. Respondents understand
20 and agree that counsel for Complainant and the staff of the Board may communicate directly with
21 the Board regarding this stipulation and surrender, without notice to or participation by
22 Respondents or their counsel. By signing the stipulation, Respondents understand and agree that
23 they may not withdraw their agreement or seek to rescind the stipulation prior to the time the
24 Board considers and acts upon it. If the Board fails to adopt this stipulation as its Decision and
25 Order, this Stipulated Surrender of Licenses and Order shall be of no force or effect, except for
26 this paragraph, it shall be inadmissible in any legal action between the parties, and the Board shall
27 not be disqualified from further action by having considered this matter.

28 ///

24. This Stipulated Surrender of Licenses and Order is intended by the parties to be an integrated writing representing the complete, final, and exclusive embodiment of their agreement. It supersedes any and all prior or contemporaneous agreements, understandings, discussions, negotiations, and commitments (written or oral). This Stipulated Surrender of Licenses and Order may not be altered, amended, modified, supplemented, or otherwise changed except by a writing executed by an authorized representative of each of the parties.

25. The parties understand and agree that Portable Document Format (PDF) and facsimile copies of this Stipulated Surrender of Licenses and Order, including PDF and facsimile signatures thereto, shall have the same force and effect as the originals.

26. In consideration of the foregoing admissions and stipulations, the parties agree that the Board may, without further notice or formal proceeding, issue and enter the following Order:

15 shall be available for inspection upon request for at least three years.

16 40. Section 1735.1, subdivision (af), of title 16, California Code of Regulations states:

17 “Segregated sterile compounding area” means a designated space for sterile-to-
18 sterile compounding where a PEC is located within either a demarcated area (at least
three foot perimeter) or in a separate room. Such area or room shall not contain and
19 shall be void of activities and materials that are extraneous to sterile compounding.
The segregated sterile compounding area shall not be in a location that has unsealed
20 windows or doors that connect to the outdoors, in a location with high traffic flow, or
in a location that is adjacent to construction sites, warehouses, or food preparation.
21 The segregated sterile compounding area shall not have a sink, other than an
emergency eye-washing station, located within three feet of a PEC. The segregated
22 sterile compounding area shall be restricted to preparation of sterile-to-sterile
compounded preparations.

23 (1) The BUD of a sterile drug preparation made in a segregated sterile
24 compounding area is limited to 12 hours or less as defined by section 1751.8(d).

25 (2) When the PEC in the segregated sterile compounding area is a CAI or a
CACI and the documentation provided by the manufacturer shows it meets the
26 requirements listed in section 1751.4(f)(1)-(3), the assigned BUD shall comply with
section 1751.8(a-b) or (d).

1 41. Section 1735.2, subdivision (e)(2)(3)(4)(8) of title 16, California Code of Regulations
2 states:

3 (e) A drug preparation shall not be compounded until the pharmacy has first
4 prepared a written master formula document that includes at least the following
elements:

5 (2) Equipment to be used.

6 (3) The maximum allowable beyond use date for the preparation, and the
7 rationale or reference source justifying its determination.

8 (4) Inactive ingredients to be used.

9 (8) Instructions for storage and handling of the compounded drug preparation.

10 42. Section 1735.2, subdivision (k) of title 16, California Code of Regulations states:

11 Prior to allowing any drug product preparation to be compounded in a
12 pharmacy, the pharmacist-in-charge shall complete a self-assessment for
13 compounding pharmacies developed by the board (Incorporated by reference is
14 “Community Pharmacy & Hospital Outpatient Pharmacy Compounding Self-
15 Assessment” Form 17M-39 Rev. 02/12.) as required by Section 1715 of Title 16,
16 Division 17, of the California Code of Regulations. That form contains a first section
17 applicable to all compounding, and a second section applicable to sterile injectable
18 compounding. The first section must be completed by the pharmacist-in-charge
before any compounding is performed in the pharmacy. The second section must be
completed by the pharmacist-in-charge before any sterile compounding is performed
in the pharmacy. The applicable sections of the self-assessment shall subsequently be
completed before July 1 of each odd-numbered year, within 30 days of the start date
of a new pharmacist-in-charge or change of location, and within 30 days of the
issuance of a new pharmacy license. The primary purpose of the self-assessment is to
promote compliance through self-examination and education.

19 43. Section 1735.3, subdivision (a)(2)(E)(F) of title 16, California Code of Regulations in
20 pertinent parts states:

21 (a) For each compounded drug preparation, pharmacy records shall include:

22 ...

23 (2) A compounding log consisting of a single document containing all of the
24 following:

25 ...

26 (E) The quantity of each ingredient used in compounding the drug preparation.

27 ///

28 ///

1 (F) The manufacturer, expiration date and lot number of each component. If
2 the manufacturer name is demonstrably unavailable, the name of the supplier may be
3 substituted. If the manufacturer does not supply an expiration date for any
4 component, the records shall include the date of receipt of the component in the
5 pharmacy, and the limitations of section 1735.2, subdivision (1) shall apply.

6 44. Section 1735.5, subdivision (c)(10) of title 16, California Code of Regulations states:

7 The policies and procedures shall include at least the following:

8 ...

9 Policies and procedures regarding ensuring appropriate functioning of
10 refrigeration devices, monitoring refrigeration device temperatures, and actions to
11 take regarding any out of range temperature variations within the pharmacy.

12 45. Section 1751.3, subdivision (a)(5) of title 16, California Code of Regulations states:

13 (a) Any pharmacy engaged in compounding sterile drug preparations shall
14 maintain written policies and procedures for compounding. Any material failure to
15 follow the pharmacy's written policies and procedures shall constitute a basis for
16 disciplinary action. In addition to the elements required by section 1735.5, there shall
17 be written policies and procedures regarding the following:

18 ...

19 (5) Compounded sterile drug preparation stability and beyond use dating.

20 46. Section 1751.4, subdivisions (d) and (j), of title 16, California Code of Regulations
21 states:

22 (d) Cleaning shall be done using a germicidal detergent and sterile water. The
23 use of a sporicidal agent is required to be used at least monthly.

24 (1) All ISO Class 5 surfaces, work table surfaces, carts, counters, and the
25 cleanroom floor shall be cleaned at least daily. After each cleaning, disinfection using
26 a suitable sterile agent shall occur on all ISO Class 5 surfaces, work table surfaces,
27 carts, and counters.

28 (2) Walls, ceilings, storage shelving, tables, stools, and all other items in the
ISO Class 7 or ISO Class 8 environment shall be cleaned at least monthly.

(3) Cleaning shall also occur after any unanticipated event that could increase
the risk of contamination.

(4) All cleaning materials, such as wipers, sponges, and mops, shall be non-
shedding and dedicated to use in the cleanroom, or ante-area, and segregated sterile
compounding areas and shall not be removed from these areas except for disposal.

///

(j) Viable surface sampling shall be done at least every six months for all sterile-to-sterile compounding and quarterly for all non-sterile-to-sterile compounding. Viable air sampling shall be done by volumetric air sampling procedures which test a sufficient volume of air (400 to 1,000 liters) at each location and shall be done at least once every six months. Viable surface and viable air sampling shall be performed by a qualified individual who is familiar with the methods and procedures for surface testing and air sampling. Viable air sampling is to be performed under dynamic conditions that simulate actual production. Viable surface sampling is to be performed under dynamic conditions of actual compounding. When the environmental monitoring action levels are exceeded, the pharmacy shall identify the CFUs at least to the genus level in addition to conducting an investigation pursuant to its policies and procedures. Remediation shall include, at minimum, an immediate investigation of cleaning and compounding operations and facility management.

47. Section 1751.7, subdivision (b)(1) of title 16, California Code of Regulations states:

The pharmacy and each individual involved in the compounding of sterile drug preparations must successfully demonstrate competency on aseptic technique and aseptic area practices before being allowed to prepare sterile drug preparations. The validation process shall be carried out in the same manner as normal production, except that an appropriate microbiological growth medium is used in place of the actual product used during sterile preparation. The validation process shall be representative of the types of manipulations, products and batch sizes the individual is expected to prepare and include a media-fill test. The validation process shall be as complicated as the most complex manipulations performed by staff and contain the same amount or greater amount of volume transferred during the compounding process. The same personnel, procedures, equipment, and materials must be used in the testing. Media used must have demonstrated the ability to support and promote growth. Completed medium samples must be incubated in a manner consistent with the manufacturer's recommendations. If microbial growth is detected, then each individual's sterile preparation process must be evaluated, corrective action taken and documented, and the validation process repeated.

48. Section 1751.8, subdivision (d) of title 16, California Code of Regulations states:

(d) The beyond use date shall specify that storage and exposure periods cannot exceed 12 hours where the sterile compounded drug preparation is compounded solely with aseptic manipulations and all of the following apply:

(1) The preparation was compounded entirely within an ISO Class 5 PEC that is located in a segregated sterile compounding area and restricted to sterile compounding activities, using only sterile ingredients, components, and devices, by personnel properly cleansed and garbed; and

(2) The compounding process involves simple transfer of not more than three commercially manufactured packages of sterile nonhazardous preparations or diagnostic radiopharmaceutical preparations from the manufacturer's original containers; and

(3) The compounding process involves not more than two entries into any one container or package (e.g., bag, vial) of sterile infusion solution or administration container/device.

49. Section 1304.11, subdivisions (a) and (c) of title 21, Code of Federal Regulations state:

(a) General requirements. Each inventory shall contain a complete and accurate record of all controlled substances on hand on the date the inventory is taken, and shall be maintained in written, typewritten, or printed form at the registered location. An inventory taken by use of an oral recording device must be promptly transcribed. Controlled substances shall be deemed to be “on hand” if they are in the possession of or under the control of the registrant, including substances returned by a customer, ordered by a customer but not yet invoiced, stored in a warehouse on behalf of the registrant, and substances in the possession of employees of the registrant and intended for distribution as complimentary samples. A separate inventory shall be made for each registered location and each independent activity registered, except as provided in paragraph (e)(4) of this section. In the event controlled substances in the possession or under the control of the registrant are stored at a location for which he/she is not registered, the substances shall be included in the inventory of the registered location to which they are subject to control or to which the person possessing the substance is responsible. The inventory may be taken either as of opening of business or as of the close of business on the inventory date and it shall be indicated on the inventory.

(c) Biennial inventory date. After the initial inventory is taken, the registrant shall take a new inventory of all stocks of controlled substances on hand at least every two years. The biennial inventory may be taken on any date which is within two years of the previous biennial inventory date.

50. Section 1317.40, subdivision (a) of title 21, Code of Federal Regulations states:

Manufacturers, distributors, reverse distributors, narcotic treatment programs, hospitals/clinics with an on-site pharmacy, and retail pharmacies that desire to be collectors shall modify their registration to obtain authorization to be a collector in accordance with §1301.52(f) of this chapter. Authorization to be a collector is subject to renewal. If a registrant that is authorized to collect ceases activities as a collector, such registrant shall notify the Administration in accordance with §1301.52(f) of this chapter.

COST RECOVERY

51. Section 125.3 of the Code provides, in pertinent part, that the Board may request the administrative law judge to direct a licensee found to have committed a violation or violations of the licensing act to pay a sum not to exceed the reasonable costs of the investigation and enforcement of the case.

FACTUAL ALLEGATIONS

52. At all times relevant herein, Alpesh Patel, Samitendu Banerjee and Andy Lu were the Pharmacists-in-Charge of Senior Care Pharmacy, Kenny Tran was the Operations Manager of

1 Senior Care Pharmacy, and Alpesh Patel, Daniel Zilafro and Kim Banerjee were the owners of
2 the majority of outstanding shares of Senior Care Pharmacy.

3 53. Senior Care Pharmacy was a closed door pharmacy which dispensed dangerous
4 drugs, including controlled substances to patients who resided in assisted living and skilled
5 nursing facilities.

6 54. Senior Care Pharmacy also compounded and dispensed sterile injectable drug
7 products to patients who resided in assisted living and skilled nursing facilities.

8 55. On or about January 23, 2017, Senior Care Pharmacy Huntington Beach filed an
9 application for a pharmacy permit and sterile compounding license. The outstanding shares of
10 Senior Care Pharmacy Huntington Beach were owned by Kim and Samitendu Banerjee.

11 **Using Unlicensed Entity to Dispense Drugs**

12 56. Novasys Health Systems Private Limited (Novasys) is located in Hyderabad, India
13 and is not licensed with the Board. From at least 2011 to July 2018, Senior Care Pharmacy
14 utilized Novasys to dispense dangerous drugs to patients. It provided Novasys with access to
15 confidential patient medical information in Senior Care Pharmacy's computer software systems
16 (QS1) and its patient profiles which contained patients' medical, contact and insurance
17 information, including patient prescription history. Novasys accessed common electronic files
18 shared with Senior Care Pharmacy to update information relevant to the dispensing of dangerous
19 drugs.

20 57. With Senior Care Pharmacy's knowledge and consent, Novasys processed new
21 prescriptions to be dispensed when Senior Care Pharmacy was short-staffed. With Senior Care's
22 knowledge and consent, Novasys also initiated the process of re-filling prescriptions for
23 dangerous drugs.

24 58. On May 2, 2018, the Board issued a "cease and desist" order requiring Novasys to
25 cease and desist practicing any activity under Pharmacy Law which requires licensure, including
26 initiating the dispensing process for new prescriptions and prescription refills and the sharing of
27 common electronic files in "QS1" and other electronic files. On May 22, 2018, the Board issued
28 an order upholding the cease and desist order.

1 59. However, after the issuance of the order upholding the cease and desist order, Senior
2 Care continued to use Novasys to dispense prescription refills and to share common electronic
3 files, including in QS1. During a follow-up inspection by the Board in July 2018, Respondents
4 Lu and Tran falsely represented to Board inspectors that all prescription refills were processed by
5 employees of Senior Care, but did admit that Novays had access to confidential information of
6 patients at assisted living or skilled nursing facilities in California.

7 **Dispensing Recycled Drugs**

8 60. From as early as 2012 through at least 2017, Senior Care Pharmacy accepted returns
9 of dangerous drugs, including controlled substances from skilled nursing and/or assisted living
10 facilities. It recycled or repackaged the returned dangerous drugs and re-dispensed them. In the
11 dispensing area of Senior Care Pharmacy, Senior Care Pharmacy maintained plastic containers of
12 dangerous drugs packaged in “bubble packs or cards,” organized alphabetically by the name of
13 the drug contained within the bubble card. Some of the bubble cards had tablets missing from
14 them and some of the bubble cards were marked as returns from skilled nursing or assisted living
15 facilities. Other bubble packs or cards of dangerous drugs were labeled with the names of other
16 pharmacies. In the dispensing area and/or the Operations Manager’s Office, Senior Care
17 Pharmacy also maintained plastic totes of drugs containing prescription drug vials. Trash bags
18 with “punched out”¹ bubble cards or packs were also found in the back-storage area. There were
19 also plastic totes that were filled with manufacturer drug bottles (both empty and filled with
20 drugs) in the dispensing area. Expired drugs were also maintained in the back-storage area.

21 61. Manufacturer drug bottles were overfilled or contained a larger quantity of tablets
22 than was indicated on the labels of the manufacturing bottles. Insurance billing charges for
23 dangerous drugs returned from skilled nursing and assisted living facilities were not reversed.

24 62. During the investigation, Kim Banerjee falsely represented to Board inspectors that
25 while Senior Care Pharmacy accepted returns of drugs from skilled nursing and assisted living
26 facilities for destruction, Senior Care Pharmacy would not re-dispense them to patients. In

27 ¹ “Punched out” refers to the activity of pharmacy personnel taking drugs out of the
28 bubble cards or packs. This is a common practice for pharmacies who reuse returned medications
from skilled nursing and assisted living facilities.

1 contrast, Samitendu Banerjee and pharmacy technicians admitted to Board inspectors that when
2 drugs were returned from skilled nursing and assisted living facilities, those drugs would be taken
3 out of their packaging, placed in prescription vials and would go back into active drug stock.

4 63. Senior Care Pharmacy stored the drugs returned from skilled nursing and assisted
5 living facilities in an area with a temperature of 83 degrees Fahrenheit even though both drug
6 manufacturers and the United States Pharmacopeia recommend that dangerous drugs be stored at
7 60 to 77 degrees Fahrenheit. Senior Care Pharmacy continued to store drugs in an area with a
8 temperature above 77 degrees Fahrenheit even after being informed by the Board inspectors to
9 cease that practice.

10 64. Controlled substances were not labeled with the name of the medication, strength, lot
11 number, expiration dates and the initials of the verifying pharmacists in Senior Care Pharmacy's
12 records. In 2017, drugs in bubble cards were labeled with two separate expiration dates on the
13 front and back label.

14 65. From January 1, 2015 through June 15, 2017, more dangerous drugs, gabapentin
15 300mg, risperidone 1mg and metformin 500mg were dispensed than purchased. Again, there
16 were overages in the inventory of such dangerous drugs as 10,695 capsules of gabapentin 300mg,
17 4,002 tablets of risperidone 1mg and 7,933.5 tablets of metformin 500mg. There were no records
18 of acquisition and disposition for the overages of those drugs.

19 66. From September 2014 through 2017, Senior Care Pharmacy was not registered as a
20 collector of controlled substances with the Drug Enforcement Administration. However, Senior
21 Care Pharmacy accepted returns of controlled substances.

22 **Failure to Retain Diabetes Test Device Records and Fraudulent Billing of Diabetes**
23 **Test Devices**

24 67. From July 31, 2017 through December 6, 2017, Senior Care Pharmacy did not retain
25 the records of acquisition and disposition for nonprescription diabetes test devices it dispensed
26 pursuant to a prescription.

27 68. From July 31, 2017 through December 6, 2017, Senior Care Pharmacy billed more
28 nonprescription diabetes test devices than it acquired. Namely, Senior Care Pharmacy billed

33,200 of these diabetes test devices to insurance carriers and/or government agencies more than it purchased.

Unsafe Compounding of Sterile Injectable Drugs

69. Between March 23, 2017, and May 15, 2017, Senior Care Pharmacy compounded “sterile to sterile”² drug preparations (low and medium risk compounding) for medically fragile patients in skilled nursing facilities and one assisted living facility.

70. Between March 23, 2017, and May 15, 2017, Senior Care Pharmacy dispensed at least 68 sterile drug preparations compounded in a laminar flow hood located in a segregated compounding area, labeled with beyond use dates greater than 12 hours and of those, at least 32 compounded sterile drug preparations where the compounding process involved more than two entries into any one container or package of sterile infusion solution or administration container/device.

71. Senior Care Pharmacy’s assigning of unsafe and illegal expiration dates or “beyond use dates” to their sterile-to-sterile compounds resulted in them compounding 194 compounded sterile preparation units of adulterated drugs on at least 98 occasions. Senior Care Pharmacy dispensed at least 68 units with unsafe beyond use dates over a two-month period (one without a beyond use date).

72. The drugs assigned dangerous beyond use dates were life-saving antibiotics intended to be administered intravenously in order to treat severe systemic bacterial infections and Total Parenteral Nutrition used to feed seriously ill and elderly patients. Patients requiring intravenous antibiotics are typically ill from rapidly progressing infections, have a weak compromised immune system or are not able to process or tolerate oral antibiotics. Administration of sub-potent antibiotic infusions are clinically correlated with treatment failure as well as development of antibiotic resistance. These were the drugs labeled with the improper beyond use date.

² Sterile compounding is the preparation of a drug from chemical or bulk drug substances into a form that will be infused directly into the bloodstream or body tissue. Sterile-to-sterile compounding refers to a situation when a pharmacy uses a sterile “start” ingredient, and compounds it in order to make a sterile end-product.

1 73. Senior Care Pharmacy continued to compound sterile drug preparations after being
2 told by a Board inspector to stop their practices and they promised under penalty of perjury to do
3 so).

4 74. Senior Care Pharmacy did not possess written policies and procedures for
5 compounded sterile preparation stability and beyond use dating and temperature variations.

6 75. Senior Care Pharmacy compounded sterile drug products (i.e., vancomycin
7 750mg/NS 250ml and vancomycin 1gm/NS/NS 250ml) without first preparing master formulas
8 which specified a laminar flow hood as equipment, an appropriate beyond use date, sterile water
9 for injection as an active ingredient and instructions for storage and handling.

10 76. Senior Care Pharmacy compounded and dispensed vancomycin 750mg/NS 250ml
11 and vancomycin 1gm/NS 250ml without documenting the quantity, manufacturer, expiration date
12 and lot number of the sterile water for injection used as a component in a compounding log.

13 77. In April 2017, Senior Care Pharmacy did not use a germicidal detergent to clean the
14 laminar flow hood in the compounding area.

15 78. Between January 1, 2017 and May 9, 2017, Senior Care Pharmacy did not perform
16 viable air sampling by volumetric sampling procedures.

17 79. Between October 12, 2016 to March 10, 2017, Senior Care Pharmacy performed
18 media fill validation by incubating for seven days rather than fourteen days.

19 80. On May 15, 2017, the Board issued a Cease and Desist Order to halt Senior Care
20 Pharmacy's sterile compounding operations. Senior Care Pharmacy agreed to an extension of
21 that cease and desist order until after the date of the expiration of its Sterile Compounding
22 License. In June 2017, the Board informed Senior Care Pharmacy that the Board would not
23 renew Senior Care Pharmacy's sterile compounding license.

24 **Lack of Drug Security and Reporting**

25 81. In 2016 through 2017, pharmacy technicians possessed keys to the areas where
26 dangerous drugs were stored at Senior Care Pharmacy.

27 82. On February 8, 2016, Senior Care Pharmacy did not possess self-assessments for
28 compounding and community pharmacies, completed prior to July 1, 2015.

83. In 2019, Senior Care Pharmacy did not possess on-site all of the records of acquisition and disposition for drugs from the last three years.

Conduct During Investigations

84. On December 6, 2017, Senior Care Pharmacy refused to allow Board inspectors to conduct an inspection of the entire premises licensed with the Board. Kenny Tran attempted to coerce Board inspectors to sign a statement conceding that Senior Care Pharmacy had not impeded the Board's investigation and waiving the Board's right to inspect drawers and cabinets in the entirety of the licensed premises.

85. On July 11, 2018, while Board inspectors were asking questions about Senior Care Pharmacy's common electronic dispensing files, QS1, Senior Care Pharmacy disconnected the QS1 server and prevented the Board inspectors from completing their inspection that day. Senior Care Pharmacy also altered the initials in QS1 of Novasys employees who processed refills, after the inspection on July 11, 2018.

86. On July 11, 2018, Kenny Tran refused to allow a pharmacy technician to complete and sign a written statement the pharmacy technician intended to provide Board inspectors.

87. On or about October 30, 2019, Po-An Lu refused to provide pharmacy records requested by Board inspectors in connection with the Board's investigation of Senior Care Pharmacy.

Change in Location of Pharmacy

88. In 2019, Senior Care Pharmacy changed locations from 12600-12601 Hoover Street to 12600 Hoover Street without filing an application for a change of permit with the Board.

11 41. Novasys Health Systems Private Limited (Novasys) is located in Hyderabad, India
12 and is not licensed with the Board. In or about May 2018, and for an unknown period of time
13 prior to this date, Respondent SCPS Fairfield utilized Novasys to dispense dangerous drugs to

15 Respondent SCPS Fairfield's computer software systems (QS1) and its patient profiles which
16 contained patients' medical, contact and insurance information, including patient prescription
17 history. Novasys accessed common electronic files shared with Respondent SCPS Fairfield to

4 licensed individuals to enter prescription information as set forth above in paragraphs 41-42.

5
6 **Inadequate Records of Diabetic Test Strips**

7 44. On or about December 6, 2017, Board Inspectors conducted an audit of all records of
8 acquisition and disposition of all Respondent SCPS Fairfield's FreeStyle Lite diabetic test strips
9 from April 1, 2015 to December 6, 2017. Records showed that Respondent SCPS Fairfield
10 dispensed a total of 726,600 test strips, but only purchased a total of 4,750 test strips from
11 wholesale dealers. This resulted in a negative variance of 721,850 test strips.

12 45. Between April 1, 2015 and July 28, 2016, when Respondent Van Nguyen was the
13 PIC of Respondent SCPS Fairfield, the audit of all records of acquisition and disposition of all
14 Respondent SCPS Fairfield's FreeStyle Lite diabetic test strips that Respondent SCPS Fairfield
15 dispensed a total of 512,850, but only purchased a total of 750 test strip from wholesale dealers.

21 Fairfield dispensed a total of 197,450 but only purchased a total of 4,000 test strips from
22 wholesale dealers. A total of 3,900 test strips were returned during this time period. This
23 resulted in a negative variance of 197,400 test strips.

24 47. On July 17, 2017, an amendment of Code section 4081, subdivision (d), required
25 pharmacies to retain records of acquisition and sale of nonprescription diabetes test devices and to

27 investigators established that from July 17, 2017 to December 6, 2017, Respondent SCPS
28 Fairfield dispensed a total of 63,250 test strips and had an inventory of 50 test strips on December

6, 2017. Respondent SCPS Fairfield provided no records of purchasing any test strips from any wholesale dealer during this time period.

Inconsistent Expiration Dates – Misbranded Products

50. On December 6, 2017, Board Inspectors conducted an inspection of Respondent SCPS Fairfield. Inspectors observed prepacked medications ready to be dispensed and found:

a. Labeling for 29 packages of Proponol 10mg had two different expiration dates. The expiration date on the patient labels was June 3, 2018, but the pharmacy's own labels listed December 31, 2018 as the expiration date. Inclusion of two different expiration dates on each of the 29 packages could cause confusion for patients and could lead to the continued use of the medication longer than the appropriate expiration date.

b. Labeling for 68 packages of Clozapine ODT 100mg had two different expiration dates. The expiration date on the patient labels was June 5, 2019, but the pharmacy's own labels listed May 31, 2018 as the expiration date. Inclusion of two different expiration dates on each of the 68

1 packages could cause confusion for patients and could lead to the continued use of the medication

13 52. On June 15, 2017, Board Inspectors conducted an inspection of Respondent SCPS
14 Fairfield to audit its inventory of gabapentin 300mg capsules, metformin 500mg tablets and
15 risperidone 1mg tablets. A drug utilization report was requested for a time period of October 1,
16 2014 to June 14, 2017. Based on the records obtained, an audit revealed the following negative
17 variance, meaning that Respondent SCPS Fairfield dispensed a greater amount of medications
18 than were purchased from wholesalers, for each of the three audited medications as follows:

19 a. Gabapentin 300mg, an overage of 48,874 capsules.

20 b. Metformin 500mg, an overage of 4,417.5 tablets.

3
4 **Security, Inventory, Misbranding, Insurance - February 3 and 11, 2016 Inspections**

5 54. During inspections on February 3, 2016, and again on February 11, 2016, Board
6 Inspectors found cabinets that stored controlled medications, ranging from Schedule II to
7 Schedule V. These cabinets had no locking mechanism to adequately secure the cabinets.

8 55. On February 3, 2016, Board Inspectors observed medication waste disposal bins,
9 containing partially used and expired medications, located throughout the pharmacy, accessible to
10 unlicensed personnel. Controlled and non-controlled drugs were commingled. No records were
11 located or provided regarding any of the medications found in the waste containers.

12 56. During the inspections on February 3 and February 11, 2016, Board Inspectors found
13 various medication tablets cut in half. Medications that were halved included: meloxicam 15mg;
14 Uloric 80mg; Fanapt 10mg; Crestor 20mg; and Crestor 5mg. Cutting these tablets could alter the
15 intended delivery system, and Inspectors observed uneven splitting of tablets, which would alter
16 the intended doses of the medications.

17 57. During the inspections on February 3 and February 11, 2016, Board Inspectors
18 observed multiple stock bottles which contained a greater quantity than indicated on the bottle.
19 There were no records or documentation kept or provided that indicated lot numbers or expiration
20 dates were checked prior to overfilling the bottles. Specific examples included:

- 21 a. Uloric 80mg, 2 containers, bottle indicated 30 each (60 total), total 84 tablets/capsules.
22 b. Fanapt 10mg, 1 container, bottle indicated 60, total 109 tablets/capsules.
23 c. Fanapt 8mg, 1 container, bottle indicated 60, total 90 tablets/capsules.
24 d. Valproic Acid 250mg, 2 containers, bottle indicated 200 each (400 total), total 276 .
25 e. Geodon 60mg, 1 container, bottle indicated 60, total 73.
26 f. Geodon 20mg, bottle indicated 60, total 121.
27 g. Toviaz 8mg, bottle indicated 30, total 84.
28 h. Viread 300mg, bottle indicated 30, total 35.

- i. Crestor 20mg, bottle indicated 90, total 122.
- j. Crestor 10mg, 2 containers, bottle indicated 90 each (180 total), total 227.
- k. Crestor, 5mg, bottle indicated 90, 95 tablets/capsules found.

58. Based on records obtained and observations from the inspections on February 3 and February 11, 2016, Board Inspectors performed an audit of five drugs: Fanapt 8mg; Fanapt 10mg; Valproic Acid 250mg; Geodone 20mg; and Geodone 60mg. Based on the records obtained, an audit revealed the following negative variance, meaning that Respondent SCPS Fairfield dispensed a greater amount of each medication than was purchased from wholesalers:

- a. Fanapt 8mg, an overage of 42 tablets.
- b. Fanapt 10mg, an overage of 125 tablets.
- c. Valproic Acid 250mg, an overage of 3,408 tablets.
- d. Geodone 20mg, an overage of 231 tablets.
- e. Geodone 60mg, an overage of 62 tablets.

59. Based on records obtained and observations from the inspections on February 3 and February 11, 2016, Board Inspectors sampled four patients to determine if insurance claims were reversed when medications were refused at the time of delivery. Records indicated that the medications for the four patients listed below were refused upon delivery and never accepted by the health care facility. Accordingly, the insurance claims should have been reversed. Instead, the following insurance claims had been paid and not subsequently reversed.

- a. Patient HK, Rx # 26172666, Risperidone 0.5mg, filled 8/19/15.
- b. Patient NO, Rx # 26150913, Divalproex 50mg, filled 5/11/15.
- c. Patient KR, Rx # 26172418, Benzotropine 1mg, filled 5/8/15.

1 **TWELFTH CAUSE FOR DISCIPLINE**

2 **(Variation from a Prescription**

3 **Against Respondent SCPS Fairfield)**

4 68. Respondent SCPS Fairfield is subject to disciplinary action under Code section 4301,
5 subdivision (j) and/or (o), and/or California Code of Regulations, title 16, section 1716, in that on
6 or about June 9, 2016, a prescription was entered into the pharmacy system as valproic acid
7 250mg/5ml syrup but was incorrectly dispensed with metoclopramide 5mg/5ml syrup on June 14,
8 2016, as set forth in paragraph 66 above.

9 **THIRTEENTH CAUSE FOR DISCIPLINE**

10 **(Failure to Comply with Quality Assurance Requirements**

11 **Against Respondent SCPS Fairfield)**

12 69. Respondent SCPS Fairfield is subject to disciplinary action under Code section 4301,
13 subdivision (j) and/or (o), and/or California Code of Regulations, title 16, section 1711,
14 subdivision (e), in that, as set forth in paragraph 67 above, Respondent failed to maintain an
15 immediately retrievable quality assurance report in the pharmacy, as required.

16
17 **Medication Errors; Delays in Delivery; and Withholding Narcotic Medications**

18 70. Between January 25, 2016 and July 20, 2016, the Board received several complaints
19 against Respondent SCPS Fairfield regarding providing the wrong medications and/or the wrong
20 dosages, delays in the delivery of medications, and withholding narcotic medications. Following
21 an investigation of all complaint items, the Board Inspectors found the following.

22 71. On or about June 30, 2015, zolpidem 5mg was ordered for patient MC. Respondent
23 SCPS Fairfield incorrectly filled with zolpidem 10mg (RX#24018142). MC ingested eight (8)
24 days of the wrong dose.

25 72. On or about August 15, 2015, Respondent SCPS Fairfield dispensed Depakote DR
26 [divalproex] 500mg tablets without prescriber authorization for patient SSa. On July 8, 2015, SSa
27 was prescribed Depakote DR 500mg tablets, which were properly filled by Respondent SCPS
28 Fairfield. On July 22, 2015, SSa was admitted to a hospital, then discharged back to Creekside

1 Behavioral Health on August 6, 2015, with new orders, but no new orders for Depakote DR
2 500mg tablets. The orders from the previous stay at Creekside should have been removed when
3 the new orders were entered. In addition, the blister packs for divalproex dispensed October 4,
4 2015, October 29, 2015 and November 24, 2015, were each misbranded with an incorrect
5 expiration date. The expiration date for repackaged bubble cards should either be one year from
6 the date of fill or the actual expiration date of the stock bottle, whichever is less. For the
7 divalproex dispensed October 4, 2015, the expiration date was December 31, 2017. For the
8 divalproex dispensed October 29, 2015, the expiration date was January 31, 2018. For the
9 divalproex dispensed November 24, 2015, the expiration date was December 31, 2017.

10 73. On or about December 23, 2015, Respondent SCPS Fairfield received a refill request
11 for Ativan 2mg for patient SSm at Creekside. Respondent SCPS Fairfield did not deliver the
12 drug until January 28, 2016. Patient SSm missed one dose of medication as a result.

13 74. On or about February 8, 2016, Respondent SCPS Fairfield received a prescription
14 order for Pristiq for patient AAP. Respondent SCPS Fairfield contacted the prescriber late in the
15 evening at home and made a recommendation to change the prescriber's order from Pristiq to
16 Effexor because the insurance required AAP to have tried and failed Effexor before Pristiq.
17 AAP's patient profile indicated that AAP had already tried and failed Effexor from November
18 2014 to August 2015.

19 75. On or about May 9, 2013, Respondent SCPS Fairfield dispensed a partial fill for
20 carbamazepine ER 300mg for patient IS because Respondent SCPS Fairfield did not have enough
21 of the product on hand to fill the entire prescription. Respondent SCPS Fairfield failed to deliver
22 the balance of the drug until May 14, 2013, causing patient IS to miss three doses.

23 76. On or about June 5, 2013, Respondent SCPS Fairfield dispensed a partial fill for
24 diazepam 2mg tablets [9 tablets out of 84] for patient RT. Respondent SCPS Fairfield failed to
25 timely order diazepam 2mg tablets from its wholesaler on June 5 or June 6, 2013, which would
26 have arrived before RT ran out of medication. Respondent SCPS Fairfield failed to deliver the
27 balance of the drug until June 10, 2013, causing patient RT to miss five doses.

28 ///

1 77. Between January 20, 2015 and March 16, 2016, Respondent SCPS Fairfield
2 dispensed Abilify Maintena ER 400 mg to patient GA. The prescription was written for Abilify
3 Maintena Injection 400 mg intramuscularly every four weeks. The label prepared by Respondent
4 SCPS Fairfield stated to inject 1ml (400mg) every four weeks. However, 1ml is equivalent to
5 200mg, not 400mg. These prescriptions were labeled incorrectly, resulting in a half dose.

6 78. On or about April 12, 2016, Respondent SCPS Fairfield received a verbal order for
7 Ativan for patient ERL. Respondent SCPS Fairfield refused the verbal order and required the
8 physician to submit a triplicate order instead. As a result, patient ERL went without Ativan until
9 April 13, 2016 and attacked another patient at Creekside.

10 79. On or about May 6, 2016, Respondent SCPS Fairfield dispensed clozapine 25mg
11 tablets with directions for patient WB to take three tablets with one tablet of clozapine 100mg
12 twice daily. One bubble in the bubble pack contained two clozapine 25mg instead of three.

13 80. On or about May 4, 2016, Respondent SCPS Fairfield received an order from LB's
14 physician to discontinue a prescription for levothyroxine 50mcg for patient LB. Despite this
15 order to discontinue, Respondent SCPS Fairfield filled an order for levothyroxine 50mcg for
16 patient LB on May 5, 2016 and delivered it to Creekside for patient LB on May 11, 2016.

17 81. On or about January 11, 2016, Respondent SCPS Fairfield's contracted transporters
18 delivered medications to Creekside and left a 30 gallon bag of medications unattended in the
19 hallway of the lockdown Behavior Health Unit for approximately 20 minutes.

20 **FOURTEENTH CAUSE FOR DISCIPLINE**

22 **Against Respondent SCPS Fairfield)**

23 82. Respondent SCPS Fairfield is subject to disciplinary action under Code section 4301,
24 subdivision (j) and/or (o), and/or California Code of Regulations, title 16, section 1716, in that on
25 or about June 30, 2015, as set forth in paragraph 71 above, a prescription was entered correctly as
26 zolpidem 5mg but was incorrectly dispensed with zolpidem 10mg.
