In the Matter of the Accusation Against:

WEST MARIN PHARMACY INC., ZSUZSANNA BIRAN and

JASON YOON, Owners,

Original Pharmacy Permit No. PHY 48531; and

ZSUZSANNA BIRAN,

Original Pharmacist License No. RPH 35444,

Respondents.

Agency Case No. 7080

OAH No. 2021020332

DECISION AND ORDER

The attached Proposed Decision of the Administrative Law Judge is hereby adopted by the Board of Pharmacy (Board), Department of Consumer Affairs, as its Decision in the aboveentitled matter, except that, pursuant to the provisions of Government Code section 11517, subdivision (c)(2)(C), the Board is making a technical, non-substantive change to the Decision's Order that does not impact the decision as follows:

On page 3 in the section entitled Standard of Proof, at the end of paragraph 4 add the following sentence: "Complainant is required to prove cause for discipline of a non-professional license, such as for a facility, by a preponderance of the evidence."

The technical change made above does not affect the factual or legal basis of the Proposed Decision, which shall become effective at 5:00 p.m. on October 30, 2021.

It is so ORDERED on September 30, 2021.

BOARD OF PHARMACY DEPARTMENT OF CONSUMER AFFAIRS STATE OF CALIFORNIA

By

Seung W. Oh, Pharm.D. Board President

BEFORE THE BOARD OF PHARMACY DEPARTMENT OF CONSUMER AFFAIRS STATE OF CALIFORNIA

In the Matter of the Accusation Against:

WEST MARIN PHARMACY INC., ZSUZSANNA BIRAN and JASON YOON, Owners,

Original Pharmacy Permit No. PHY 48531; and

ZSUZSANNA BIRAN,

Original Pharmacist License No. RPH 35444,

Respondents.

Agency Case No. 7080

OAH No. 2021020332

PROPOSED DECISION

Administrative Law Judge Michael C. Starkey, State of California, Office of Administrative Hearings, heard this matter on May 24, 2021, via telephone and videoconference. Deputy Attorney General Carla L. Cheung represented complainant Anne Sodergren, Executive Officer of the Board of Pharmacy, Department of Consumer Affairs.

Attorney Natalia Mazina represented respondent West Marin Pharmacy Inc., and respondent Zsuzsanna Biran, who was present.

The record closed and the matter was submitted on May 24, 2021.

FACTUAL FINDINGS

Jurisdictional Matters

1. On or about June 11, 2007, the Board of Pharmacy (Board) issued Original Pharmacy Permit Number PHY 48531 to respondent West Marin Pharmacy Inc. (West Marin Pharmacy). Since that date, Jason Yoon has been the Chairman, 50-percent shareholder, and Secretary; and respondent Zsuzsanna Biran (Biran) has been the President, 50-percent shareholder, Treasurer/Chief Financial Officer, and Pharmacist-in-Charge (PIC) of West Marin Pharmacy. The pharmacy permit was in full force and effect at all relevant times and will expire on June 1, 2022, unless renewed.

2. On August 14, 1980, the Board issued Original Pharmacist License Number RPH 35444 to Biran. The license was in full force and effect at all relevant times and will expire on March 31, 2022, unless renewed.

3. On January 23, 2021, complainant Anne Sodergren issued the accusation solely in her capacity as Executive Officer of the Board. Complainant alleges that cause exists to discipline respondents' licenses because they: 1) compounded copies of commercially available drugs not found on the Federal Drug Administration (FDA) or

ASHP (American Society of Health-System Pharmacists) drug shortage lists; 2) failed to maintain adequate master formulas for compounded drugs; 3) failed to maintain adequate recordkeeping for compounded drug preparations; 4) failed to timely review, and failed to document a timely review, of written policies and procedures for compounding; 5) failed to keep a compounding hood clean and free of clutter; and 6) failed to demonstrate that all pharmacy personnel engaged in compounding are knowledgeable of West Marin Pharmacy's processes and procedures prior to compounding. Respondents timely submitted a notice of defense and this proceeding followed.

Standard of Proof

4. Complainant is required to prove cause for discipline of a professional license or registration by "clear and convincing proof to a reasonable certainty." (Cf. *Ettinger v. Board of Medical Quality Assurance* (1982) 135 Cal.App.3d 853, 856; see Bus. & Prof. Code, § 23.7 [all statutory references are to the Business and Professions Code, unless otherwise stated].) If respondents contend mitigation or rehabilitation, it is their burden to prove those contentions by a preponderance of the evidence. (Evid. Code, §§ 115, 500.)

Background/Current Probation

5. The Board investigated West Marin Pharmacy in 2019, resulting in accusation No. 6801 (OAH No. 2020020972), alleging that respondents: 1) failed to maintain a current inventory of controlled substances and dangerous drugs; 2) accepted unused medications from patients without an authorized take-back receptacle; 3) incorrectly labeled prescription bottles intended for dispensing to customers; 4) failed to properly label a compounded drug preparation prior to

dispensing; 5) incorrectly labeled a non-sterile compounded drug preparation with a beyond-use date that exceeded the date allowed by regulation; 6) failed to properly maintain a complete compounding log; 7) deviated from the requirements of a prescription by dispensing extended release, instead of immediate release, tablets of morphine sulphate; and 8) failed to provide a recent, completed compounding self-assessment upon request.

6. On November 9, 2020, the Board issued a stipulated disciplinary order effective December 9, 2020, revoking the licenses held by West Marin Pharmacy and Biran, staying the revocation, and placing the licenses on probation for a period of three years, under numerous terms and conditions, including that respondents retain at their expense an independent consultant responsible for conducting monthly inspections of the pharmacy to ensure compliance with applicable state and federal laws and regulations. In the stipulated disciplinary order, respondents admitted that complainant could prove the allegations in accusation No. 6801.

7. Biran does not deny the allegations in the instant accusation.

8. West Marin Pharmacy is located in Point Reyes Station, a rural area. The nearest other pharmacy is approximately 16 miles away, accessible only by winding roads.

The October 8, 2020 Inspection

9. On September 23, 2020, the Board received a complaint from a consumer that an opiate painkiller medication (hydrocodone/acetaminophen, 5/325 mg capsules) dispensed to him by West Marin Pharmacy was ineffective and he was up all night with pain; West Marin Pharmacy refused take the medication back; and that

West Marin Pharmacy told him the drug was compounded capsules instead of in tablet form because the wholesaler would not ship the drug to West Marin Pharmacy.

10. In connection with that complaint, on October 8, 2020, Board investigator Sara Mullin, Pharm.D., conducted an inspection of West Marin Pharmacy. Mullin spoke with Biran, who informed her that she had the compounded capsules tested for potency by a laboratory and learned that there "was nothing wrong with them." This claim was corroborated by a laboratory report respondents submitted to the Board on October 21, 2020. Mullin agrees that the capsules were correctly compounded and that West Marin Pharmacy was not allowed to take them back from the customer.

11. Biran told Mullin that West Marin Pharmacy compounded the hydrocodone/acetaminophen capsules because all wholesalers had "cut her off." She believed that the reason for this was that a local doctor was overprescribing controlled substances. Biran stated that she believed that she was allowed to compound such drugs because they were not available to West Marin Pharmacy and that it was a good service to local patients who were on hospice and unable to drive to another pharmacy.

12. At hearing Mullin explained that, in response to the current opioid drug epidemic, drug wholesalers sometimes refuse to sell controlled substances to certain pharmacies, often based on unexpected fluctuations in purchase histories. Such decisions are typically permanent, but sometimes a pharmacy can provide an explanation and the wholesaler resumes selling such drugs to the pharmacy.

13. Mullin reviewed West Marin Pharmacy's compounding logs and observed that between February 20, 2019, and October 8, 2020, respondents West Marin Pharmacy and Biran compounded the following drug preparations, which were copies

of commercially available drugs not found on the FDA or ASHP drug shortage lists (listed by number of capsules compounded, name of drug, dosage):

- 300 Diazepam, 2 mg
- 320 Diazepam, 8 mg
- 30 Diazepam, 9 mg
- 1,870 Diazepam, 10 mg
- 24 Codeine, 15 mg
- 500 Hydrocodone 3 mg
- 1,100 Hydrocodone 5 mg
- 100 Hydrocodone 10 mg
- 1,000 Hydrocodone/acetaminophen 5-325 mg
- 3,000 Hydrocodone/acetaminophen 10-325 mg
- 100 Hydrocodone/acetaminophen 2.5-325 mg
- 210 Hydrocodone/acetaminophen 5-162.5 mg
- 200 Hydrocodone/acetaminophen 7.5-325 mg
- 100 Hydrocodone/acetaminophen 3.75-162.5 (dosage unit not reported)
- 500 Morphine sulfate IR 15 mg
- 600 Morphine sulfate ER 15 mg

• 30 Morphine sulfate 20 mg/ml syrup (ml)

14. During the October 8, 2020 inspection Mullin reviewed West Marin Pharmacy's master formulas for diazepam 2mg capsules, hydrocodone/acetaminophen 5-325mg capsules, and morphine sulfate extended release 15mg capsules compounded by respondents. The master formulas did not include the equipment to be used for compounding, the maximum allowable beyond-use date and supporting reference, specific and essential compounding steps, quality reviews required at each step in preparation, post-compounding procedures, and instructions for storage and handling of drug preparations.

15. During the October 8, 2020 inspection Mullin reviewed respondents' compounding log. The compounding log did not include the date of compounding, documentation of quality reviews, or documentation of post-compounding processes and procedures. However, the log did include a reference or lot number that was a combination of initials and a date, which Mullin assumed was the date of compounding. Biran later provided proof of correction of this violation to Mullin.

16. During the October 8, 2020 inspection Mullin reviewed West Marin Pharmacy's written policies and procedures for compounding. The written policies and procedures for compounding did not include documentation of the annual review required by Biran. As shown by the documentation, Biran had not reviewed the written policies and procedures since March 5, 2019. Also, the pharmacy staff had not completed an annual competency evaluation and training, as outlined in West Marin Pharmacy's policies and procedures, since March 2019.

17. During the October 8, 2020 inspection Mullin observed a water bottle, a coffee beverage, and a pen inside the direct compounding area of West Marin

Pharmacy's compounding hood. No evidence was received regarding whether this was in accordance with the specifications of manufacturers of the compounding equipment.

Subsequent Information

18. On February 19, 2021, another Board investigator, Hilda Nip, conducted an inspection of West Marin Pharmacy. Nip observed violations of pharmacy law, including CBD products on shelves in the retail area of store, no written notice of consultation for delivery, employees without name badges, an undersized notice to consumer, a log indicating refrigerator temperatures averaging one degree Celsius higher than allowed, and a failure to document review of compounding policies and procedures since March 2019 (the same issue Mullin observed on October 8, 2020).

Further Disciplinary Considerations

19. In addition to the 2020 disciplinary order and ongoing probation described in Factual Findings 5 and 6, on September 6, 2018, the Board issued Citation Number CI 2016 75710 and ordered West Marin Pharmacy to pay a fine of \$3,000. Also, on September 6, 2018, the Board issued Citation Number CI 2018 80820 and ordered Biran to pay a fine of \$3,000. Both citations are final, and Board records indicate that they were paid. The September 6, 2018 citations included violations related to compounding, recordkeeping, and training that were also found in the subsequent inspections that underlie the 2020 disciplinary order and this proceeding.

Respondents' Evidence

20. Biran has been licensed as a pharmacist in California for more than 40 years. Her license was not disciplined prior to 2020. She was also licensed as a

pharmacist in New Hampshire for three years prior to becoming licensed in California. She came out of a brief retirement to co-own and operate West Marin Pharmacy in 2007, after the previous owner passed away. Before that Biran had worked as the manager and PIC for multiple chain pharmacies, and as a staff pharmacist for Stanford, Kaiser, and San Francisco General hospitals.

21. Biran is involved in West Marin Pharmacy's local community, helping to build a playground, sponsoring a local radio station, speaking at local events and clubs, and giving interviews to the local radio station and writing articles for the local newspaper. Biran makes pharmacy deliveries to West Marin Pharmacy customers after hours, if urgent.

22. Biran reports that West Marin Pharmacy does not perform sterile compounding and that non-sterile compounding represents only one to two percent of its output. She reports that she interpreted the prohibition against compounding commercially available drugs to mean drugs available to her, and was attempting to comply with the spirit of the regulation and serve the needs of her elderly or infirm customers.

23. After the October 8, 2020 inspection, Biran requested a waiver from the Board to compound commercially available drugs to prevent West Marin Pharmacy customers from having to make long, dangerous drives to obtain controlled substances medications. That request was denied. She also tried to negotiate with wholesalers, but to no avail. She now understands the regulation and has a link to the relevant shortage lists to facilitate compliance. She understands that West Marin Pharmacy must comply with the letter of each law applicable to its practice of pharmacy, despite any perceived hardship to its customers.

24. Biran admits that West Marin Pharmacy's own written compounding procedures require compounding equipment to be free of dust, debris, and clutter. She explained that she placed the coffee cup in the compounding area, which was not being used at the time, to make space for Mullin to use her laptop during the October 8, 2020 inspection.

25. Pursuant to the terms of probation in the November 9, 2020 disciplinary order, West Marin Pharmacy hired Terry Cater as an independent consultant responsible for conducting monthly inspections of the pharmacy to ensure compliance with applicable state and federal laws and regulations. Biran reports that she feels capable of running West Marin Pharmacy in a fully compliant manner, but reports that Cater has been very helpful in that regard.

26. Cater testified at hearing and authored reports of his monthly inspections of West Marin Pharmacy, dated March 22 and April 27, 2021. He holds a master of business administration degree and bachelor of science degree in pharmacy. He has been licensed as a pharmacist since 1973, without discipline. Since 2016, Cater has been the vice president of a pharmacy technology company. In his individual capacity, he has also provided consulting services to the healthcare and pharmaceutical industries since 2006. Before then, Cater was vice president of two large retail pharmacy companies. He has also worked as an executive in consulting and managed care companies. From 1984 through 1995, Cater was director of pharmacy for chain supermarket pharmacies.

27. Cater reports that during his initial monthly inspection on March 22, 2021, he observed no violations of pharmacy law and compliance with the probation terms of the 2020 disciplinary order. Cater also reviewed the causes for discipline and probation terms of the 2020 disciplinary action with Biran and reports

that she appeared "intent on complying with probation requirements and" all applicable laws and regulations.

28. Cater reports that during his second monthly inspection on April 27, 2021, he confirmed that West Marin Pharmacy had rectified the violations underlying the 2020 disciplinary order and some of the violations observed during the October 8, 2020 inspection. He found Biran to have a positive, good attitude, and she appeared open to his recommendations. Again, Cater observed no violations of pharmacy law.

29. Cater also reports that he reviewed the February 19, 2021 inspection report with Biran and observed that West Marin Pharmacy had corrected all the reported violations. Cater opines that Biran is naïve but caring, and now on the right course towards keeping West Marin Pharmacy in compliance with all pharmacy laws and regulations. Cater reports that he addressed these issues in his third report for May 2021, which was not received in evidence in this proceeding.

30. Respondents submitted written statements of 18 West Marin Pharmacy customers or health practitioners in the local community. The authors emphasized that West Marin Pharmacy provides critical services to local residents and many expressed their gratitude and high regard for West Marin Pharmacy, Biran and her efforts to serve the local residents.

Costs

31. In connection with the investigation and enforcement of this accusation, complainant requests an award of costs in the total amount of \$12,545.75, for investigation costs in the amount of \$3,115.75, and attorney and paralegal services provided by the Department of Justice and billed to the Board in the amount of

\$9,430. That request is supported by declarations. In the absence of any argument or evidence to the contrary, these costs are found to be reasonable.

LEGAL CONCLUSIONS

First Cause for Discipline (Compounding Commercial Drugs Not Found on the FDA or ASHP Drug Shortage List)

1. The Board may discipline the license of a licensee who commits unprofessional conduct, which includes any violations of California's Pharmacy Law (§§ 4000, et seq.) or the applicable state and federal laws and regulations governing the practice of pharmacy (§ 4301, subd. (o).). Additionally, the PIC is responsible for a pharmacy's compliance with all state and federal laws and regulations pertaining to the practice of pharmacy. (§ 4113, subd. (c).)

2. No pharmacy or pharmacist shall compound a drug preparation that:

[i]s a copy or essentially a copy of one or more commercially available drug products, unless that drug product appears on an [ASHP] or FDA list of drugs that are in short supply at the time of compounding and at the time of dispense, and the compounding of that drug preparation is justified by a specific, documented medical need made known to the pharmacist prior to compounding.

(Cal. Code Regs., tit. 16, § 1735.2, subd. (d)(3).)

3. Between February 20, 2019, and October 8, 2020, West Marin Pharmacy and Biran compounded numerous drug preparations which were copies of

commercially available drugs not found on the FDA or ASHP drug shortage lists. (Factual Finding 13.) Concern for the convenience of customers is not an excuse for these violations. Cause was established to discipline West Marin Pharmacy's pharmacy permit and Biran's pharmacist license under section 4301, subdivision (o), and California Code of Regulations, title 16, section 1735.2, subdivision (d)(3).

Second Cause for Discipline (Compounding Limitations and Requirements)

4. A drug preparation shall not be compounded until the pharmacy has first prepared a written master formula document that includes the following elements: equipment to be used; the maximum allowable beyond use date for the preparation, and the rationale or reference source justifying its determination; quality reviews required at each step in preparation of the drug; post-compounding process or procedures required, if any; and instructions for storage and handling of the compounded drug preparation. (Cal. Code Regs., tit. 16, § 1735.2, subds. (e)(2), (3), (6), (7) & (8.).)

5. During the October 8, 2020 inspection, Mullin observed that West Marin Pharmacy's master formulas for multiple drugs compounded by respondents did not contain these elements. (Factual Finding 14.) Cause was established to discipline West Marin Pharmacy's pharmacy permit and Biran's pharmacist license under section 4301, subdivision (o), and California Code of Regulations, title 16, section 1735.2, subdivisions (e)(2), (3), (6), (7) & (8.)

Third Cause for Discipline (Recordkeeping of Compounded Drug Preparations)

6. Barring exceptions inapplicable here, for each compounded drug preparation, pharmacy records must include: the date the drug preparation was compounded, and documentation of quality reviews and required post-compounding process and procedures. (Cal. Code Regs., tit. 16, § 1735.3, subds. (a)(2)(B) & (J).)

7. During the October 8, 2020 inspection, Mullin observed that respondents' compounding log did not include this required information, although the log did include a reference or lot number that was a combination of initials and a date, which Mullin assumed was the date of compounding. (Factual Finding 15.) Cause was established to discipline West Marin Pharmacy's pharmacy permit and Biran's pharmacist license under section 4301, subdivision (o), and California Code of Regulations, title 16, section 1735.3, subdivisions (a)(2)(B) & (J).

Fourth Cause for Discipline (Compounding Policies and Procedures)

8. Any pharmacy engaged in compounding shall:

maintain written policies and procedures for compounding that establishes procurement procedures, methodologies for the formulation and compounding of drugs, facilities and equipment cleaning, maintenance, operation, and other standard operating procedures related to compounding. Any material failure to follow the pharmacy's written policies and procedures shall constitute a basis for disciplinary action. (b) The policies and procedures shall be reviewed and such review shall be documented on an annual basis by the pharmacist-in-charge. The policies and procedures shall be updated whenever changes in policies and procedures are implemented.

(c) The policies and procedures shall include at least the following:

...¶...

(7) Dates and signatures reflecting all annual reviews of the policies and procedures by the pharmacist-in-charge.

(Cal. Code Regs., tit. 16, § 1735.5, subds. (a), (b), and (c)(7).)

9. During the October 8, 2020 inspection, Mullin observed that the written policies and procedures for compounding did not include documentation of the annual review required by Biran. (Factual Finding 16.) Biran had not reviewed the written policies and procedures since March 5, 2019. Cause was established to discipline West Marin Pharmacy's pharmacy permit and Biran's pharmacist license under section 4301, subdivision (o), and California Code of Regulations, title 16, section 1735.5, subdivisions (a), (b), and (c)(7).).

Fifth Alleged Cause for Discipline (Compounding Facilities and Equipment)

10. "Any equipment used to compound drug preparations shall be stored, used, maintained, and cleaned in accordance with manufacturers' specifications." (Cal. Code Regs., tit. 16, § 1735.6, subd. (b).) 11. During the October 8, 2020 inspection Mullin observed a water bottle, a coffee beverage, and a pen inside the direct compounding area of West Marin Pharmacy's compounding hood, but no evidence was received regarding whether this was in accordance with manufacturer's specifications. (Factual Finding 17.) Respondents did not specifically dispute this alleged cause for discipline, but they did not concede it. Cause was not established to discipline West Marin Pharmacy's pharmacy permit and Biran's pharmacist license under section 4301, subdivision (o), and California Code of Regulations, title 16, section 1735.6, subdivision (b).

Sixth Cause for Discipline (Training of Compounding Staff)

12. The regulations provide:

(b) The pharmacy shall develop and maintain an on-going competency evaluation process for pharmacy personnel involved in compounding, and shall maintain documentation of any and all training related to compounding undertaken by pharmacy personnel.

(c) Pharmacy personnel assigned to compounding duties shall demonstrate knowledge about processes and procedures used in compounding prior to compounding any drug preparation.

(Cal. Code Regs., tit. 16, § 1735.7, subds. (b) & (c).)

13. During the October 8, 2020 inspection, Mullin observed that the pharmacy staff had not completed an annual competency evaluation and training, as outlined in West Marin Pharmacy's policies and procedures, since March 2019. (Factual

Finding 16.) Cause was established to discipline West Marin Pharmacy's pharmacy permit and Biran's pharmacist license under section 4301, subdivision (o), and California Code of Regulations, title 16, section 1735.7, subdivision (c).

Determination of Discipline

14. Cause for discipline having been established, the remaining issue is what level of discipline is required to protect the public. Protection of the public "shall be paramount." (§ 4001.1.) Where a licensee has repeat or serious violation(s) involving the improper compounding of drug products or repeat or serious violation(s) resulting from the misuse of education or licensing privileges, the Board's disciplinary guidelines recommend a minimum discipline of revocation, stayed; a 90-day term of actual suspension; a three- to five-year term of probation, with standard and optional conditions of probation as appropriate; and a maximum discipline of revocation. (Disciplinary Guidelines, A Manual of Disciplinary Guidelines and Model Disciplinary Orders (Feb. 2017 Rev.) (Disciplinary Guidelines), at pp. 11-12; Cal. Code Regs., tit. 16, § 1760.) In determining whether the minimum, maximum, or an intermediate penalty is to be imposed in a given case, the relevant factors include: nature and severity of the acts; actual or potential harm to the public; actual or potential harm to any consumer; time passed since the act(s); aggravating and mitigating evidence; and rehabilitation evidence. (Disciplinary Guidelines at p. 4.)

15. Respondents' violations of the pharmacy law are numerous and serious. Respondents were recently cited and placed on probation for similar misconduct. These repeated violations raise serious questions as to whether respondents have the willingness or ability to operate lawfully. However, prior to 2020, neither West Marin Pharmacy, nor Biran had any record of license discipline. Biran practiced as a pharmacist for almost 40 years without formal discipline; West Marin Pharmacy

operated for more than 13 years without license discipline. Respondents submitted the reports and testimony of their probation consultant Cater and numerous other letters of support. Biran accepts responsibility for the misconduct and demonstrated insight and a resolve to operate lawfully. No actual harm to the public was shown. Critically, the instant violations and those observed in the February 2021 inspection predated Cater's involvement as a consultant. Cater reports observing no new violations and a willingness to change. The public will be adequately protected by extending the probation of each respondent by one year, subject to the same terms and conditions.

Other Matters

16. Pursuant to section 4307, if discipline is imposed on Original Pharmacy Permit Number PHY 48531, issued to respondent West Marin Pharmacy, it shall be prohibited from serving as a manager, administrator, owner, member, officer, director, associate, or partner of a licensee for five years if Original Pharmacy Permit Number PHY 48531 is placed on probation or until reinstated if it is revoked.

17. Pursuant to section 4307, if discipline is imposed on Original Pharmacy Permit Number PHY 48531, issued to respondent West Marin Pharmacy while Biran and/or Jason Yoon have been an officer or owner and had knowledge of or knowingly participated in any conduct for which the license was disciplined, Biran and/or Jason Yoon shall be prohibited from serving as a manager, administrator, owner, member, officer, director, associate, or partner of a licensee for five years if Original Pharmacy Permit Number PHY 48531 is placed on probation or until reinstated if it is revoked.

18. Pursuant to section 4307 of the Code, if discipline is imposed on Original Pharmacist License Number RPH 35444 issued to Biran, she shall be prohibited from serving as a manager, administrator, owner, member, officer, director, associate, or

partner of a licensee for five years if Original Pharmacist License Number RPH 35444 is placed on probation or until reinstated if it is revoked.

Costs

19. A licensee who is found to have committed a violation of the licensing act may be ordered to pay a sum not to exceed the reasonable costs of investigation and enforcement. (§ 125.3.) Cause exists to order respondents to pay the Board's costs in the amount of \$12,545.75. (Factual Finding 31 and Legal Conclusions 3, 5, 7, 9, & 13.)

20. Cost awards must not deter licensees with potentially meritorious claims from exercising their right to an administrative hearing. (*Zuckerman v. State Board of Chiropractic Examiners* (2002) 29 Cal.4th 32, 45.) Cost awards must be reduced where a licensee has been successful at hearing in getting the charges dismissed or reduced; a licensee is unable to pay; or where the scope of the investigation was disproportionate to the alleged misconduct. (*Ibid.*) The agency must also consider whether the licensee has raised a colorable challenge to the proposed discipline, and a licensee's good faith belief in the merits of his or her position. (*Ibid.*) Here, complainant proved five of six alleged causes for discipline, so the cost award will be reduced by one-sixth, to \$10,454.79.

ORDER

1. Original Pharmacy Permit Number PHY 48531, issued to respondent West Marin Pharmacy Inc., Zsuzsanna Biran and Jason Yoon, Owners (West Marin Pharmacy), shall remain on probation. Probation is extended by one year, on the same terms and conditions imposed pursuant to the November 9, 2020 stipulated disciplinary order in Case No. 6801.

2. Original Pharmacist License Number RPH 35444, issued to Zsuzsanna Biran, shall remain on probation. Probation is extended by one year, on the same terms and conditions imposed pursuant to the November 9, 2020 stipulated disciplinary order in Case No. 6801.

3. West Marin Pharmacy is prohibited from serving as a manager, administrator, owner, member, officer, director, associate, or partner of a licensee for five years.

4. Zsuzsanna Biran is prohibited from serving as a manager, administrator, owner, member, officer, director, associate, or partner of a licensee other than West Marin Pharmacy for five years.

5. Jason Yoon is prohibited from serving as a manager, administrator, owner, member, officer, director, associate, or partner of a licensee other than West Marin Pharmacy for five years.

6. West Marin Pharmacy and Zsuzsanna Biran, jointly and severally, are ordered to pay the Board of Pharmacy \$10,454.79 for the reasonable costs of the investigation and enforcement of this case, pursuant to Business and Professions Code section 125.3.

9	4. From on or about June 11, 2007 to the present, Respondent Biran served as, and/or
10	was listed in Board records as, Pharmacist-in-Charge for Respondent Pharmacy.
11	JURISDICTION
12	5. This Accusation is brought before the Board under the authority of the following
13	laws. All section references are to the Business and Professions Code (Code) unless otherwise
14	indicated.
15	6. Section 4307 of the Code states:
16	(a) Any person who has been denied a license or whose license has been
17	revoked or is under suspension, or who has failed to renew his or her license while it was under suspension, or who has been a manager, administrator, owner, member, officer, director, associate, partner, or any other person with management or control
18	of any partnership, corporation, trust, firm, or association whose application for a license has been denied or revoked, is under suspension or has been placed on
19	probation, and while acting as the manager, administrator, owner, member, officer, director, associate, partner, or any other person with management or control had
20	knowledge of or knowingly participated in any conduct for which the license was denied, revoked, suspended, or placed on probation, shall be prohibited from serving
21	as a manager, administrator, owner, member, officer, director, associate, partner, or in any other position with management or control of a licensee as follows:
22	(1) Where a probationary license is issued or where an existing license is
23	placed on probation, this prohibition shall remain in effect for a period not to exceed five years.
24	(2) Where the license is denied or revoked, the prohibition shall continue until
25	the license is issued or reinstated.
26	(b) "Manager, administrator, owner, member, officer, director, associate, partner, or any other person with management or control of a license" as used in this
27	section and Section 4308, may refer to a pharmacist or to any other person who serves in such capacity in or for a licensee.

DISCIPLINE CONSIDERATIONS

33. To determine the degree of discipline, if any, to be imposed on Respondent Pharmacy 8 9 and Respondent Biran, Complainant alleges that on or about December 9, 2020, in a prior disciplinary action titled In the Matter of the Accusation Against West Marin Pharmacy and 10 Zsuzsanna Biran before the Board, in Case Number 6801, Respondent Pharmacy's Original 11 Pharmacy Permit and Respondent Biran's Registered Pharmacist License were revoked for failing 12 to maintain current inventory, accepting unused medications from patients without an authorized 13 14 take-back receptacle, incorrectly labeling prescription bottles, failing to properly label compounded prescriptions, failing to maintain a complete compounding log, failing to dispense a 15 drug as prescribed, and failing to provide recent, completed compounding self-assessment. 16 However, the revocations were stayed, and Respondent Pharmacy's Original Pharmacy Permit 17 and Respondent Biran's Registered Pharmacist License were placed on probation for three years 18 with terms and conditions, effective December 9, 2020. That decision is now final. 19 34. Complainant further alleges that on or about September 6, 2018, in a prior action, the 20 21 Board of Pharmacy issued Citation Number CI 2016 75710 and ordered Respondent Pharmacy to

pay a fine of \$3,000.00. That Citation is now final, and Board records indicate that the citation
fine was paid.

35. Complainant further alleges that on or about September 6, 2018, in a prior action, the
Board of Pharmacy issued Citation Number CI 2018 80820 and ordered Respondent Biran to pay
a fine of \$3,000.00. That Citation is now final, and Board records indicate that the citation fine
was paid.
